PUBLIC WORKS, IRELAND.

SEVENTY-FIFTH ANNUAL REPORT

OF THE

COMMISSIONERS OF PUBLIC WORKS IN IRELAND. FOR THE YEAR 1906-1907.

TO THE LORDS COMMISSIONERS OF HIS MAJESTY'S TREASURY.

MAY IT PLEASE YOUR LORDSHIPS,

We beg to submit the Seventy-fifth Annual Report of the Board.

Our report follows the order adopted for some years past, dealing with the business of the year under the following heads:—

- (1.) Public Works and Buildings, including National and Ancient Monuments.
- (2.) Light Railways and Tramways.
- (3.) Loans.
- (4.) Miscellaneous duties of the Board.

The body of the Report contains statements and observations on matters under each of the four divisions which appear to deserve special notice. Details as to the various services are given in the Appendices.

(1.)—PUBLIC WORKS AND BUILDINGS, INCLUDING NATIONAL AND ANCIENT MONUMENTS.

Details of the provision made by Parliament for the year 1906-1907 for Public Works and Buildings, including National and Ancient Monuments, will be found at pp. 61-69 of the Estimates for that year. The Public Buildings (Ireland) Vote is included in Class I, and comprises the following:—

Naval and Military; State and Official Residences; Civil Departments (including Science and Art Buildings in charge of Department of Agriculture); Legal Departments; Dublin Metropolitan Police; Royal Irish Constabulary; Dundrum Criminal Lunatic Asylum; Public Education; Royal University and Queen's Colleges; Revenue Departments.

The Vote also embraces—

Royal Parks and Gardens:—

Phoenix Park; St. Stephen's Green; the Curragh of Kildare.

Royal Harbours:—

Kingstown; Howth; Donaghadee; Donmore; Ardglann.

Inland Navigation:—

Malpas.

Ancient Monuments Protection Act, 1882 (45 & 46 Vic., c. 73).

Ditto, ditto, 1892 (55 & 56 Vic., c. 46).

In addition to works, &c., for which provision is made by Vote of Parliament, Part I of this Report also deals with certain new works connected with Fishery Piers and Harbours, the cost of which is met out of moneys provided from the Irish Church Fund, under the Sea Fisheries (Ireland) Act, 1883 (46 & 47 Vic., c. 26).

PHOENIX PARK.

White's Gate.—Under the arrangement come to with Lord Iveagh, as explained in our Report for last year, the new entrance gates to the Park and Farmleigh, at White's Gate, have now been completed.

It was desirable that a broad and simple design should be adopted both for the new gate and for the adjoining entrance to the Farmleigh Demesne, and the Board are glad to say that Lord Iveagh agreed to renew the entrance gates and piers to Farmleigh, on a design approved by him and the Board jointly. A wicket gate for cyclists has also been provided in the Park entrance.

New Plant Houses.—A further portion of the scheme for new plant houses has been carried out, and one large detached house and three smaller combined houses, including forcing and propagating houses, as well as a complete range of potting sheds, are now in working order. The new structures are proving most satisfactory. The foundations have now been laid for the remainder of the glass-houses which, it is expected, will be completed during the year 1907. An underground tank, for the storage of water in connection with the plant houses, has been constructed.

The side gateways, for pedestrian traffic at the main entrance from Parkgate-street, which had become insufficient to accommodate the greatly increased traffic to the Park, have been widened, and new expanding gates have been erected. This change gives increased facilities for foot traffic and an improved appearance to the entrance.

The want of improved artificial lighting on the Park roads has been felt for some time. During the past year a commencement has been made of substituting incandescent gas lighting for the ordinary fish-tail gas burners used heretofore, and it is intended to continue and complete the new installation during the current year.

A number of old elm trees throughout the Park, which, by reason of age and the effects of the great storm of February, 1903, had become dangerous to the public frequenting the Park have, in the interests of safety, been pollarded. The trees, as a consequence are, for the time being, somewhat unsightly. This appearance, however, is merely temporary, and in the course of a few years fresh growth will conceal the effects of the operation.

The new plantation situated at the back of Mountjoy Barracks, which was planted in 1904, has been extended by an addition of about 3 acres, and planted with mixed hardwoods.

The banks of the ornamental lake in the Park Gardens have been improved and planted and the island in the lake replanted with suitable shrubs and plants.

The Board have entered into an arrangement with a contractor to place a number of chairs for hire in the Park on a system analogous to that in existence in the Royal Parks in London. So far as it has gone the experiment seems to have been considerably appreciated by the public using the Park.

The number of applications received during the season for grounds for Association football, Gaelic football, and hurling were, respectively, as follows:—

Association football,	2,910
Gaelic football,	142
Hurling,	115

Two new grounds have been provided for the purposes of hurling and Gaelic football, by utilising a portion of the space formerly allotted to Association football games, thus avoiding any addition to the already large area, allocated for various games in the Park.

ST. STEPHEN'S GREEN.

Royal Dublin Fusiliers Memorial.—A sum of about £1,800 has been raised by public subscription to erect a monument in memory of the officers, non-commissioned officers, and men of the Royal Dublin Fusiliers who fell in the South African War of 1899-1900. It was suggested that the monument should take the form of a triumphal arch forming a new north-west entrance to St. Stephen's Green Park. The Board's consent, which was necessary, was given; and by special arrangement the design was prepared by Mr. J. Howard Pentland, R.H.A., one of the Board's Principal Surveyors.

The work has been completed since the end of the financial year.

Of the sum of £100,000 allocated for works under the Marine Works Act, a sum of £34,843 was expended up to the close of the financial year. The unexpended balance as from 31st March, 1907, was £65,157, but this balance includes not only the sum necessary to complete the works now in progress, but also a large sum which was provisionally set aside for expenditure upon the Inishlyre scheme above referred to.

The following table gives an outline of the progress made with the various Marine works in operation or completed under the Act, with a statement of the expenditure thereon up to the 31st March last :—

Works Proposed.	Progress Made.	Estimated Total Cost			Expended to 31st March, 1907.		
		£	s.	d.	£	s.	d.
CAPE CLEAR, COUNTY CORK :							
An inner harbour cross wall, with entrance (and booms) at one end. Repairs and improvements to the harbour walls, and deepening of the inner harbour.	Considerable difficulty was experienced in securing proper foundations for the boom wall, but the work was practically completed by the 31st December, 1906. Some undercutting of the boom wall head was noticed subsequently which necessitated underpinning and sheet piling the foundations, and caused delay in the final completion. The works have been finished since the end of the financial year.	6,450	0	0	3,781	13	7
LISCANNON, COUNTY CLARE :							
The deepening of the harbour; the construction of two special berths for steamers; an extension of groynes at the entrance; and the formation of a service area for traffic.	The work was finished except for some rock excavation in the bed of the harbour, which the contractors have experienced great difficulty in dealing with.	8,600	0	0	6,460	12	11
BOWINSTONE, COUNTY GALWAY :							
The extension of the existing north pier to cover a dangerous rock,	The work is completed and the final payment made.	—			1,849	4	0
KILRUSHAN, COUNTY GALWAY :							
The extension and partial reconstruction of an existing old jetty.	The work is completed and the final payment made.	—			3,319	15	8
CLEGGAN, COUNTY GALWAY :							
Construction of a breakwater and cattle slip, and the removal of a portion of the existing groynes.	The work is completed.	3,734	0	0	3,068	13	7
KINVARRA, COUNTY GALWAY :							
The restoration of the pier and wharf walls, and the erection of a new storm wall and other minor improvements.	The work is completed and the final payment made.	—			1,868	13	7
GORTINPATRICK, COUNTY DONEGAL :							
The construction of a deep water quay for steamers, and of an approach road, and the removal of shoals.	The contract work is completed but some rock excavation below low water level, subsequently arranged for, has still to be finished.	5,700	0	0	6,824	9	11
CHARNAGHERLAGH, COUNTY DONEGAL :							
A timber jetty extension of the existing pier.	The work is completed and the final payment made.	—			1,250	0	1

Works Proposed.	Progress Made.	Estimated Total Cost.	Expended to 31st March, 1907.
PORTNOO, COUNTY DUBLIN:		£ s. d.	£ s. d.
Rebuilding of an old pier.	The work is completed, but some rock excavation below water has still to be measured up and certified as finished.	3,360 0 0	2,450 16 1
DOWNSIE BAY, COUNTY DUBLIN:			
The extension of the existing pier, and the removal of rock from the end thereof.	The work is completed.	4,450 0 0	4,349 9 8
FALCARRIG, COUNTY DUBLIN:			
The construction of a boat slip.	Preliminary arrangements were made, but the necessary formalities having only been completed after the close of the year, actual work could not be started till May, 1907.	1,000 0 0	—

NATIONAL SCHOOL GRANTS.

The following table shows the amounts voted for and expended on grants in each of the last twenty years:—

Year.	Provision.	Expenditure.	Year.	Provision.	Expenditure.
	£	£		£	£
1886-6.	22,000	29,125	1896-7.	40,000	40,000
1887-7.	30,000	41,220	1897-8.	40,000	36,500
1888-8.	48,000	51,322	1898-9.	33,500	27,132
1889-9.	40,000	41,495	1899-1900.	40,000	32,109
1890-0.	40,000	31,189	1900-1.	40,000	38,554
1891-1.	40,000	27,331	1901-2.	33,000	26,956
1892-2.	30,000	30,014	1902-3.	33,000	33,280
1893-3.	30,000	24,283	1903-4.	33,000	13,142
1894-4.	30,000	28,198	1904-5.	12,500	18,499
1895-5.	28,000	28,179	1905-6.	20,000	28,007
1896-6.	30,000	40,000	1906-7.	20,000	13,457
				£719,000	£380,142

The smallness of the sum expended in the last financial year is due to a temporary suspension of grants while the new type plans to be published were under consideration by your Lordships and the Irish Government, and to the fact that portion of the expenditure covered by the estimate became due and was paid towards the end of 1905-6. Since the end of the financial year the main points at issue have been settled.

NEW ROYAL COLLEGE OF SCIENCE FOR IRELAND.

Contract No. 2, comprising the erection of the lower ground floor, was nearly completed during the financial year; arrangements are now in progress to invite tenders for the next floor, as well as for the new Mechanical Engineering School, which will form a separate building contiguous to the new College on a site available at the rear of Nos. 2 & 3 Kildare place.

QUEEN'S COLLEGE, BELFAST.

Considerable additions have been made to this College during the past year. The work is being carried out by joint contributions from the Exchequer and from moneys locally subscribed. The Committee of the Better Equipment Fund which has been raised in Belfast for the improvement of the College, voted a sum of £5,400 towards increasing the accommodation for the Departments of Chemistry, Pathology, Physiology, and Medicine, and Your Lordships agreed to grant an equal sum for these purposes and for the better protection of the College grounds. The most important

buildings erected are those on the north side of the College facing University Square, and this facade, which was in an unfinished condition, has now been greatly improved and completed.

The problem was not an easy one, as there existed on the site isolated and incomplete buildings, of a plainer description than the original College, which had to be incorporated in the scheme. The new works, consisting of additions to the Engineering School, Chemical Buildings, and Physiological Department (three distinct blocks) were designed to connect and form with these a complete wing, harmonising with the old work, though distinct by reason of the necessary modifications. The style followed was, of course, late Gothic of the perpendicular period to correspond with the original, but of a simpler and less ornate description, in red brick with stone dressings, window tracery, etc. The Medical School Buildings, to which an important addition has been built, come immediately behind this new wing and have been designed in keeping. They form the south side of an inner quadrangle.

Another important new work which adds greatly to the architectural effect is the gateway and porter's lodge on the principal front of the College. The entrance is through a Tudor arch in the lower stage of the Tower, the arms of the College being carved above in a stone traceried panel. For details of the work see Appendix A.

DISCONTINUANCE OF COASTGUARD STATIONS.

We understand that a scheme is under consideration for modifying the conditions under which the duties of the Coast Guard are performed. Pending the completion of this scheme, a considerable reduction has already been made in the number of Coast Guard Stations on the Irish Coast. The following stations and detachments have been discontinued during 1906-07 :—Annagassan, Ballymacaw, Ballyshannon, Cahore, Derkmere, Dunany Point, Groomsport, Kilmore, Knockadoon, Knockalla, Larne, Millicove, Moville, Orlock Hill, Roberts' Cove, Skerries : and in the following cases where land has been acquired for the purpose of building new stations, the Admiralty have decided not to proceed :—Cushendun, Dandrum, Malahide, Portrane, Renmore. The following Royal Naval Reserve Batteries have also been discontinued :—Larne, Renmore, Tramore.

It has not in all cases been possible for the Board to obtain reasonable terms, on behalf of the Admiralty, for giving up the sites of these existing and proposed buildings, which are mostly held on lease ; Your Lordships have therefore approved of the lands being retained, pending further consideration, wherever they cannot be surrendered except on disproportionate payments.

ANCIENT AND NATIONAL MONUMENTS.

The structures vested in the Board up to the end of the year number 214. With few exceptions all of these have been inspected during the year.

At forty-one monuments repairs have been carried out ; a list will be found in Appendix E.

It has been the practice to refer in some detail to one of the structures operated on during the year, and Clonmacnois has been selected for the present notice and illustration.

Clonmacnois.

The ruins of the "Seven Churches" of Clonmacnois are situate on the Shannon, in King's County, nearly in the centre of Ireland. A monastery, or religious city, was founded here A.D. 545-548, which rose to great importance, though its foundation was almost accidental, and its founder gave it no fostering care. St. Kieran, "Mac an t Saor," "Son of the Carpenter," as he was named from his father's occupation, had settled as recluse on Inis Ainghin (or Hare Island, in Lough Ree), and conceived the idea of founding a little wooden church and cell lower down the Shannon, at a lonely spot called Cluan Macnois, Clonmacnois, Ard Tibra or Drom Tipraid. While engaged on the work he was found by a fugitive, Prince Dermot, who aided him to set the first posts of the church, thereby earning his blessing and a prophesy of coming honour. Soon afterwards Dermot was elected King of Ireland, and endowed the establishment. The place grew in fame and learning, and many churches and villages of huts were crowded round Kieran's cell. Omitting allusion to its long lists of noted men, some even of European fame, we briefly record some of its eventful history. It suffered often from plunderers and destroyers, both Norse and Irish, having been ravaged six times between 834 and 1012, and burned at least ten times

between 719 and 1082, and twenty-six times from 841 to 1204. The Norse King Turgesis, in his attempt to break up the Irish Church in 843, enthroned his wife Ota on the altar in the chief church at Clonsilla, whence she gave her oracles. It was plundered by the subjects of King Donough O'Brien in 1042, but he punished the culprits, and made amends to the monks. The Normans did violence to it several times about the year 1200.

Omitting mere sites and foundations, there remain two round towers, three crosses of large size and elaborate sculpture, eight churches, a castle, and two holy wells, and

some 200 inscribed tombstones and fragments. Plates and descriptions of these last are given in Appendix E, pages 68-73. The churches are:—(1) The Cathedral; (2 and 3) the conjoined Churches of Temple Harp and Temple Doolin;

(4) Temple Ri, or Melaghlin's Church; (5) Aghlishbeg or Temple Kieran; (6) Temple Conor; (7) Temple Finghin or Finian; and (8) the Nuns' Church. The sites of former churches are (9) "Temple Killen," (10) "Temple Kelly," (11) "Temple Ganly," and (12) "The Bishop's Chapel." There was also (13) another church near the castle named after "Moreig O'Duffy."

The ruins, with the exception of the Nuns' Church, are grouped together, the castle lying near the river, the others included within the graveyard, in which so many princes, prelates, and sages lie buried.

To turn to the records of the buildings, the *Aghlish Beg* or *Temple Kieran* was reputed to be on the site of that church founded by the patron about 545, and covered his tomb. It is a very small early cell. In it were found the two beautiful bronze and silver Irish crosses now in the collection of the Royal Irish Academy. It was an oblong oratory, not rectangular, over twelve feet long and eight feet wide inside the walls, which are about two feet thick. It had antae at each corner, but the south-western one and part of the rude west door have been rebuilt.

The *great Church* or *Cathedral* was restored about 910 by the Abbot Culman MacAillel and the High King Flann, son of Melachlin. They also erected the High Cross near it, still inscribed with their names. This church was again restored by Cormac,

CLONMACNOIS

NORTH DOORWAY OF CATHEDRAL

ELEVATION

PLAN

son of Conu m bocht and Flaherty O'Lynch, between 1080 and 1104; by Tomaltagh MacDermot in 1330, and by the Dean Odo, whose name appears above the elaborate north door, about 1460. It was destroyed by the English in 1552 and again restored by the Vicar-General, Charles Coghlan, in 1647.

The Cathedral, also called Temple Dermot, Temple Coghlan, and in older times "Danahling" or stone church, hardly retains any suggestion of its early date save in the projecting antae. Here was buried Roderick, the last native King of Ireland (died 1198), and his father, King Turlough. It is an oblong structure, measuring 62 feet by 28 feet 8 inches inside. It had a curious arrangement in the chancel, which was divided by pillars into three vaulted chapels. The attached piers and groinings at the sides alone remain. The other internal details are plain, but the west and north doors were elaborate on the outside; the northern is richly moulded with figures of St. Francis, St. Patrick, and St. Dominick, and a commemorative inscription overhead to Dean Odo. There is some delicate carving on both doors, with foliage and small dragons. The east gable has fallen, and also most of the west gable, with the arch of its door. At the south is the vaulted sacristy with an apartment over it having a curious octagonal chimney with window-like slits for the smoke.

ELEVATION OF CHANCEL ARCH & TOWER

SCALE OF FEET

GROUND PLAN.

ST. FINIAN'S CHURCH AND ROUND TOWER, CLONMACNOIS.

Temple Connor was probably built in 1010, when it was endowed with lands by Cathal O'Connor. The west door and south window still existing belong to that time. It measures 42 feet 8 inches by 26 feet 6 inches wide, and has a burial enclosure to the north. The church has been modernized, and is still used as a Protestant place of worship.

Temple Killen, a levelled church barely traceable to the east of Temple Finhin, was built before 968. The causeway from it to the Nuns' Church was made at two periods; the first, the eastern portion from the Nuns' Garden to the Cairn of the Three Crosses, in 1026; the second, westward "to Cros Chomgaill at the entrance of the street," in 1070.

St. Finian's or Finhin's Church, or *Regees Finhin* or *Finian* is mentioned in 1015, when a great storm overthrew its oak tree, but the neighbouring well of Tober Finhin and a cell near it have records from 610 which probably refer to the church site.

ST. FINIAN'S CHURCH, CLONMACNOIS.—SECTION SHOWING CHANCEL AND THE BASE OF THE ROUND TOWER ATTACHED TO IT.

This church embodies at the intersection of its nave and choir the unique and finely built Round Tower called "Clogas Beg" and "MacCarthy's Tower." The Church consists of a nearly levelled nave and a well preserved early chancel, 8 feet square. The choir arch has three orders, two probably of the late eleventh century, the innermost much later. The tower has been deeply cut into in order to square the angle of the nave. It is a disputed question whether it is not earlier than the church in which it is embedded. It is certainly not an afterthought, and seems (despite assertion to the contrary) to be contemporaneous.

Temple Kelly, now also levelled, was probably the church built in 1167 by Conor NaCeallaigh, Chief of Hy Many, on the site of the Older Hospital of Isill Kierua.

The great Round Tower is attributed to Fergal O'Rourke, who was slain in 964; the Register of Clonmacnois says "he built a small steep castle or steeple called in the Irish *Claithough*." At least he repaired it, and it was further restored after its partial destruction by lightning in 1184.

This Round Tower, called "Clogasmere" and "the Steeple" is for the most part of finely fitted ashlar. It is over 60 feet high and 58 feet 8 inches in girth, the round headed door-way is 11 feet above the ground. The upper storey has been rebuilt roughly. Four of the older stories remain, so probably three were destroyed. Its base is slightly out of plumb and overhangs a few inches.

Temple Hurpain and *Temple Doolin*, or *MacLaffy's Church* lie to the south, the latter having been attached to the east end of the former. The older church measures 31½ feet by 16 feet inside: it retains the antae side walls and simple round-headed east windows with the gable of a very early Celtic oratory. A late pointed door was inserted in place of the original western entrance in 1689, about which time was built *Temple Doolin*, a plain building, measuring 22 feet 10 inches by 12 feet 9 inches inside: the whole is 57 feet 3 inches long.

EXTERIOR ELEVATION

SECTION

PLAN

Temple Melaghlin, or *Temple RI*, lies to the north-east of the last and south-east from the Cathedral. It is a plain, oblong, 12th century building, 41 feet by 17 feet 8 inches inside, the walls being about 3 feet thick. The double east window has round heads with shallow mouldings round the arches and piers, and wide splay. The church had a gallery at the west end; the south window is pointed.

To the west of this group of churches stand two high crosses. "The Cross of the Scriptures," as appears by a defaced inscription, was put up by Flann, son of Melaghlin, and King of Ireland, and the Abbot Colman, about 908. It has the unusual feature of the ring being an entire circle on each face, and shown as held by two plaques. The faces and sides are decorated with carvings of the Crucifixion, the Last Judgment, and scenes from the Passion. One panel probably represents St. Kieran and King Dermot setting the first post of the Church. A procession of chariots appears on the base. The second High Cross, near *Temple Hurpain*, is mainly covered with interlacings and other decorations. It has also a carving of the Crucifixion. A worn shaft of a third cross stands to the north of the Cathedral.

The Normans, about 1212, built a castle at Clonmacnois, probably on the site of an earthwork called *Lis-an-Abbaid*, the residence of the Abbot, which had been burned on Easter Day, 1135. The King ordered compensation to be paid to the Bishop in 1216 for damage done to his lands and gardens by the construction of the fortress.

The Castle stands to the west of the cemetery in a square entrenchment. It consists of a rudely built keep, courtyard and gateway. One of the turrets has fallen against the main building, evidently from the result of an explosion.

The ancient causeway leading to the Nuns' Church is still fairly complete. Near it was discovered evident trace of the "Cairn of the Three Crosses," in which was found a slab inscribed "Oront an Thureain las andernad in chrossa." "A prayer for Thureain, who made this cross." See Plate II., No. 13, page 59.

The Nuns' Church stood before 1026, and was repaired by the ill-starred Dervorgilla, wife of Tiernan O'Rourke. After 1170 she retired to it a penitent, and there died and was buried. The architecture, however, seems to belong to the period about 1100.

WEST DOORWAY.

THE NUNS' CHURCH, CLONMACNOISE.

CHANCEL ARCH.

THE NUNN'S CHURCH

The Nunn's Church consists of a nave and chancel, nave 36 feet 3 inches by 19 feet 6 inches, and chancel 14 feet 3 inches by 13 feet 3 inches. It retains its richly carved west door and chancel arch, dating from about 1100, with chevrons and beading, enclosing fantastic heads and a small sheslanagig or luck-bringing grotesque. The chancel arch was on the point of falling in 1738; it afterwards fell and was restored by the Kilkenny Archaeological Society (now Royal Society of Antiquaries) in 1865.

The final blow fell on Clonmacnois (after a long period of obscurity as a Bishop's See and Abbey) in 1552, when the English plundered and dismantled the churches and carried off the bells out of the cloistrench.

Slight attempts to repair the Cathedral and Temple Hurpain were made respectively in 1647 and 1689, and some most judicious restoration was carried out by Reverend James Graves, Hon. Secretary of the Kilkenny Archaeological Society (now the Royal Society of Antiquaries of Ireland) in 1865. Clonmacnois was vested in the Board of Works in 1880, since when several small works of conservation have been carried out. In Appendix E pages 58-73, are given illustrations and descriptions of all the inscribed stones now existing at Clonmacnois.

(2). LIGHT RAILWAYS AND TRAMWAYS.

Evidence was given on behalf of this Board before the Vice-Royal Commission on Irish Railways. It related partly to the general history of State assistance to railways in Ireland, and partly to the particular lines in respect of which the Board at present have duties. These lines may be classified as follows;—

- (1.) *Railways into possession of which the Board have entered as mortgagees on account of the repayments of loans advanced having fallen into arrear.*

Letterkenny Railway, between Letterkenny and Farland Point.—This railway is worked for the Board by the Londonderry and Lough Swilly Railway Company under an agreement, terminating in 1917, for a percentage of the gross receipts on a sliding scale of from 60 to 67 per cent.

The Board made two loans to the Letterkenny Railway, one of £35,000 guaranteed by certain areas in the County of Donegal and by Londonderry City. This loan is in course of repayment by those localities, the annual charge being £1,767 10s. The other loan of £50,000 is secured by mortgage only. No part of the principal has been repaid, and there are arrears of interest amounting to £5,857. The net receipts from the line during the three years 1904-1906 have been sufficient to defray the interest accruing due and to reduce the arrears of interest by £1,900.

The Southern Railway, between Clonmel and Thurles, is worked under a perpetual agreement by the Great Southern and Western Railway Company as successors to the Waterford and Limerick Railway Company at a rate calculated on 60 per cent. of the gross receipts which are under Section 47 of the Act 63 and 64 Vic., cap. cxxvii., to be taken at not less than £10,451 5s. 2d. per annum.

In this case the Board lent £56,184 17s. 5d., of which £1,491 has been repaid and £54,693 17s. 5d. is outstanding; there are also arrears of interest amounting to £9,286 4s. 10d. During the three years 1904-1906 the arrears of interest have been reduced by £1,336.

Lisavady and Dungiven Railway.—This line was worked by the Belfast and Northern Counties Railway Company for 85 per cent. of the gross receipts, and on the transfer of that undertaking to the Midland Railway Company of England by the Midland and Northern Counties Railway Act of 1903 it was worked on the same terms by the Joint Committee. As the result of negotiations with the Midland Company the latter have agreed to purchase the Board's interest in the line for a sum of £2,000. An agreement has been entered into with the Company and is scheduled to a Bill at present before Parliament.

In this case the Board lent £20,000 of which £1,800 has been paid and £18,200 is outstanding. There are also arrears of interest amounting to £11,806 6s. 11d.

- (2.) *Railways in which the Board investigate the accounts from time to time in connection with repayments made to the Counties by the Treasury in respect of payments towards guarantees given by the former under the Tramways Act, 1889.*

Particulars of the area of charge, capital, receipts, and expenditure, and amount of Treasury contribution are given in Appendix J. The railway lines under this category are the Clogher Valley; Cavan and Leitrim; West Clare; Schull and Skibbereen; Cork and Muskerry; Dublin and Blessington; Ballinasceathy, Timoleague and Courtmacsherry; Loughrea and Attymon; Ballinrobe and Claremorris; South Clare; Athenry and Tuam Extension to Claremorris; Denoughmore Extension; Headford and Kenmare; Killorglin and Valentia; Collooney and Swinford; Claremorris and Swinford. The four last-named lines also received State grants under the Light Railways Act, 1889.

- (3.) *Railways built out of funds provided under the Railways (Ireland) Act, 1896.*

Bunerana and Carndonagh Railway.

Letterkenny and Burtonport Railway.

These lines are worked by the Londonderry and Lough Swilly Railway Company in perpetuity under Agreements with the Board and the Treasury for actual expenses up to a maximum charge of £3 10s. per mile per week, the surplus receipts being divided equally between the Treasury and the working company.

The Company are bound to work and maintain these railways in an efficient and substantial manner so as to develop the resources of the districts. The train service must be run at such times as, in the Board's opinion, will suit the traffic. Through bookings of goods and passengers must be entered into to the Board's satisfaction. The Treasury or the Board may appoint an officer to examine the accounts of the lines.

The original cost of the Burtonport line was £319,377, of which £314,165 was a free grant; the Carndonagh line cost £100,557, of which £95,260 was a free grant. The total net receipts so far accruing to the Treasury during the three years 1904-1906 from these lines were £3,061 from the Burtonport line and £847 from the Carndonagh line, but the accounts are not yet finally settled.

(4.) *Railways to be constructed or improved with the aid of funds provided out of the Ireland Development Grant.*

Newry, Keady, and Tynan Railway. Proposed new Railway.
Tralee and Dingle Railway. Works of Improvement.

Particulars of the Board's functions in regard to the former Railway are given in their Reports of 1904-5 and 1905-6, and in regard to the latter in the Report of 1905-6.

(3). LOANS.

Labourers Acts. Transfer of Lending Powers.

During a period of twenty-three years the Board have made advances to the amount of £3,357,351 under the Labourers Acts 1883-1906, the object of which was to better the condition of agricultural labourers in rural districts by providing them with suitable dwellings and garden allotments. Particulars of the loans sanctioned will be found in Appendix C.

The power to make advances under the Labourers Acts has been transferred by the Labourers (Ireland) Act, 1906, to the Irish Land Commission. The advances under the new conditions will be subject to a specially low rate of interest and will be made for a longer period than hitherto, being repayable in like manner as advances under the Land Purchase Acts. The Board's powers of lending were regulated by the Public Health Act, 1878, which prescribes that regard shall be had to the probable duration and continuing utility of the works; and in no case could the period of repayment exceed fifty years. In practice most of the loans were made for that period. The period under the new Act is estimated at sixty-eight years. Practically the Board's administrative functions under the Labourers Acts were confined to ascertaining that the security offered by the rates of the District was adequate, issuing the loans in instalments as recommended from time to time by the Local Government Board, and receiving the half-yearly repayments on account of the moneys advanced. This latter duty will of course continue until the outstanding balances, about £3,761,350, have been repaid. Some open accounts also remain from which advances may be made to complete current schemes begun before 1st November, 1906.

The loans made by the Board are classified as follows:—

(1.) Loans secured on Undertakings, e.g. :—

For Inland Navigation, Harbours, &c., under 1 and 2 Wm. IV., c. 33.
For Labourers' Dwellings in Towns, and Housing of the Working Classes, under Acts of 1866, 1885, 1890, and 1893.

(11.) Loans secured on Rates, e.g. :—

To County Councils for Roads, Bridges, Piers, Harbours, Lunatic Asylum Buildings, Courthouses, Reformatories, and Industrial Schools.
For purposes sanctioned by the Public Health Act.
For Labourers' Dwellings under the Act of 1883.
For Dispensary Houses.
For Workhouse Buildings, &c.
For the Acquisition of Small Dwellings.
For Buildings and purchase of Land for purposes of the Agriculture and Technical Instruction (Ireland) Act, 1899.

ADVANCES, REPAYMENTS, AND ARREARS.

The earliest mention of Public Works Loans to be found in the Abstract (Appendix G.) submitted by the Board is in connection with the Statute 57 Geo. III., c. 84, passed in 1817. The total of all loan advances from that date to 31st March, 1907 (with certain loans made under special Acts before 1817), is £47,703,007.

The classified abstract in Appendix (G.), pages 58 to 59, shows the portions of this amount which have been (1) repaid, (2) remitted, (3) written off from Local Loans Fund, or (4) which remain outstanding. The figures showing repayment, remission, &c., of the total sum advanced are as follows:—

	£
Total Repayments, (including £63 written off and subsequently recovered),	29,451,158
Total Remissions,	8,092,586
Written off from Local Loans Fund,	218,770
Outstanding Balances,	9,830,493
	<u>£47,703,007</u>

The aggregate of outstanding balances is represented in the books of the Office by 35,607 open accounts. The loans generally are in course of repayment by half-yearly instalments.

The amount issued to borrowers in the year 1906-1907 out of moneys advanced by the National Debt Commissioners for loan purposes was £573,164, as against £600,542 in 1905-1906, and £703,320 in 1904-1905.

The issues for 1906-7 show a decrease of £27,378 as compared with 1905-6.

Increased issues were made on the following services:—Quarries and Miscellaneous, £24,000; Housing of the Working Classes, £37,039; Workhouse Buildings, £18,880; Agriculture and Technical Instruction, £1,000; Counties, £4,684; Dispensary Houses, £7,921; Harbours, £50; Land Improvement, £128.

The most important decreases were on the following services:—Glebe, £1,227; Public Health, £3,081; Lunatic Asylums, £19,668; Repairs to Fishery Piers, £148; Labourers Acts, £36,798; Land Law, £8,226; Seed Supply, £40,575; Small Dwellings, £2,150; Schools and Colleges, £4,859; Arterial Drainage, 26 and 27 Vic., £2,649.

Of the total amount of £573,164 issued, £399,916 was advanced on the following Services:—

	£
Lunatic Asylum Buildings,	35,388
Public Health,	64,771
Labourers Acts,	219,017
Housing of the Working Classes,	55,304
Workhouse Buildings,	26,536
	<u>£399,916</u>

The amounts received in the year were £586,096 in repayment of principal, and £345,832 in respect of interest, making together £931,928. Of the total, £835,755 was paid over by the Board to the National Debt Commissioners in discharge of principal and interest of loans made out of the Local Loans Fund and £46,223 to the Irish Land Commission in respect of loans made out of the Irish Church Fund.

With regard to the whole Loans Service, the following table shows the payments towards discharge of Loans, and the arrears of principal and interest for the last four years:—

Year.	Payments.	Arrears.			Total Principal Outstanding (excluding Amounts written off).
		Principal.	Interest.	Total.	
	£	£	£	£	£
1903-1904,	747,261	194,403	102,707	297,110	9,591,847
1904-1905,	801,677	203,678	103,455	307,133	9,819,024
1905-1906,	851,612	212,455	104,165	316,620	9,899,142
1906-1907,	881,978	205,433	101,945	307,377	9,930,493

The following Abstract shows the amounts to which the arrears set forth in the above table have accrued on the various loan services :—

	To 31st March, 1906.			To 31st March, 1907.			Principal Amount outstanding on 31st March, 1907.
	Principal.	Interest.	Total.	Principal.	Interest.	Total.

(a) Excluding Arrears, £218,770, written off from the Local Loans Fund

Arrears on Public Works Loans generally show an increase on balance, as compared with 31st March, 1906, of £2,451, mainly accounted for on the following services :—Harbours, £3,188 ; Housing of the Working Classes, £151 ; Labourers' Dwellings, £59 ; Glebe, £119 ; Local Boards, decrease, £1,040.

The arrears of loans for Railways show a decrease of £4,614, made up as follows :—Increase—Southern, £288 ; Letterkenny, £1,350 ; Limavady and Dungiven, £1,684 ; decrease—Fishguard and Rosslare, £7,936.

In the case of the latter line under the provisions of sec. 15 of the Fishguard and Rosslare Railways and Harbours Act, 1894, the Company have paid a sum of £10,000 in redemption of the Incumbrancers' Moiety of the surplus receipts. Of this amount the sum of £7,946 represented the Board's proportion ; the balance was paid over to the other incumbrancers.

Arrears on Land Loans payable by owners stood at £36,382, as against £41,623 on 31st March, 1906, a decrease of £5,241, which is made up as follows :—Land Improvement Loans—Decrease, £4,753 ; Land Act, 1870, £488.

The issues made in the year under the Land Law Act, 1881 (44 and 45 Vic., c. 49, sec. 31) brought the total advances, from the commencement of the service, to occupiers of land for the improvement of their holdings to £1,341,842 10s. 0d. Of this sum £807,956 2s. 7d. principal had been repaid, and £11,593 6s. 7d. written off the assets of the Local Loans Fund to the 31st March, 1907, and on that date there were arrears of principal £16,865 19s. 8d. which, with £505,487 1s. 2d. principal not yet due, represented the total amount outstanding, viz :—£523,303 0s. 10d.

The arrears, principal and interest, under the Land Law Act, 1881, stood at £20,572 at the close of the year as against £20,902 on 31st March, 1906, a decrease of £330.

The arrears on Arterial Drainage charges payable by owners show a decrease of £599, and on the charges payable by occupiers in the River Suck Drainage District an increase of £228.

RATES OF INTEREST.

By Treasury Minute of 3rd March, 1904, the rates of interest on loans advanced on the security of local rates were fixed at $3\frac{1}{2}$ per cent. for 20, $3\frac{3}{4}$ for 30, 4 for 40 and $4\frac{1}{2}$ for 50 years.

The following statement shows the rates of interest chargeable on the several amounts constituting the aggregate balances of principal outstanding in each of the years ended 31st March, 1905, 1906, and 1907, respectively:—

	31 March, 1905.	31 March, 1906.	31 March, 1907
	£	£	£
Free of Interest,	1,148	1,833	1,059
$2\frac{1}{2}$ per cent.,	358,182	318,567	501,536
3 "	69,036	65,716	64,434
$3\frac{1}{2}$ "	855,840	800,050	736,836
$\pounds 2s. 9d.$ per cent.,	15,575	12,631	11,486
$5\frac{1}{2}$ per cent.,	1,474,152	1,438,627	1,578,836
$5\frac{3}{4}$ "	172,314	166,458	160,711
$5\frac{1}{2}$ "	4,244,369	4,264,328	4,216,445
$3\frac{1}{2}$ "	1,498,375	1,569,879	1,433,693

The following Statements show:—

- (1.) The rates of interest payable to this Board in respect of the sum of £573,164 advanced during the last financial year;
- (2.) The terms of years over which repayment of the advances has been spread; and
- (3.) The mode of repayment, i.e., by equal instalments of principal and interest combined by way of annuity, or by equal instalments of principal, with interest on the principal sum from time to time outstanding.

The following Returns have been furnished to other Departments, or for presentation to Parliament, during the year:—

- (i.) Inspectors of Lunatic Asylums: Statement of Repayments, 1906-07, by Counties and County Boroughs in respect of Loans for Lunatic Asylum Buildings.
- (ii.) (a.) Local Government Board: Return of outstanding balances of loans at 31st March, 1906, due by County Boroughs, Urban Districts, and Towns, for local taxation return:
(b.) Summary of repayments of expenditure for Arterial Drainage, Acts 26 and 27 Vic. and 29 and 30 Vic.
- (iii.) National Debt Commissioners: Local Loans Fund—Particulars of advances, repayments, outstanding balances, etc., for year ending 31st March, 1906.
- (iv.) Special Commissioner, Income Tax Department—Return of interest received in respect of Railway Loans for year to 31st March, 1906.
- (v.) Land Commission—Church Fund—Estimated repayments from 1907-8 to 1924-5.

(4.) MISCELLANEOUS DUTIES OF THE BOARD.

ROYAL COMMISSION ON CANALS AND WATERWAYS.

BOARD OF CONTROL OVER THE ROYAL CANAL.

Evidence was given on behalf of the Board by Mr. Commissioner Stevenson before the Royal Commission appointed in 1906 to inquire into the Canals and Waterways of the United Kingdom. The evidence was partly of a general character, relating to the history of inland navigation in Ireland; in part it dealt specially with the Royal Canal and the Board of Control over it. The Board of Control was constituted in 1818 by the Act 58 George III., cap. 35, and was given large and drastic powers over the Canal Company. The Canal Company is now represented by the Midland Great Western Railway Company, which purchased the canal under its Act of 1845 (8 & 9 Vict., cap. 119). The first members of the Board of Control were the five Directors of Inland Navigation; they were abolished in 1831, the Board of Works taking up their functions, and it became the practice for the Lord Lieutenant to appoint as members of the Board of Control the three Commissioners of Works with two unofficial members to make up the statutory number of five. About 1881, however, the appointments of unofficial members were allowed to lapse, and from that time till 1906 the functions of the Board of Control were carried on as part of the ordinary duties of the Board of Works. This arrangement was a natural one, since the Board of Control has not, and apparently never had, any independent staff, no provision for this having been made in the Act of 1818. In 1906, however, the Irish Government came to the conclusion that it was desirable to bring the Board of Control up to its full statutory complement, and accordingly the Lord Lieutenant on the 4th August, 1906, appointed James Ross, Esq., J.P., and Thomas F. Nooney, Esq., J.P., to be members of the Board. Our technical and clerical staff continue, under sanction given by Your Lordships, to carry out the directions of the Board of Control.

During the period from 1896 to 1906 this Board, acting as the Board of Control, were engaged in pressing the Midland Great Western Railway Company to carry out the recommendations of Major Mariadin, an Inspector under the Board of Trade, who, in consequence of complaints as to the condition of the Canal, made a complete inspection of it in 1895. The Railway Company have carried out at different times since 1895 many works of maintenance and repair, and they assert that the standard laid down by Major Mariadin is now fully attained. Reports furnished to the Board of Control by the officers of the Board of Works do not, however, bear out this contention, and the Board of Control are taking further steps, with the approval of His Excellency the Lord Lieutenant, to secure that the Canal shall be put in proper condition.

VICEROYAL COMMISSION ON ARTERIAL DRAINAGE IN IRELAND.

It was mentioned in our last Annual Report (p. 24) that evidence was given in 1905-6 before this Commission dealing with the history of Arterial Drainage since 1857. Further evidence was given on behalf of the Board in November, 1906, on the financial, engineering, and administrative aspects of the question.

The Commission has now issued its Report (Cd. 3374 of 1907). The conclusions stated are somewhat similar to those reached by the Allport Commission on Irish Public Works in 1897; the recommendations include the formation of Conservancy Boards to have control of the main river basins, and Drainage Committees to deal with the minor streams, both classes of bodies to be connected with the County Councils and partly composed of their members.

In respect of finance, it is recommended that the maintenance of existing districts and the construction and maintenance of future drainage districts should be County works, the cost being charged by special rates on those benefited; except that in the case of main outfalls on which the Commission anticipate that the cost of works necessary to effect drainage will exceed the pecuniary benefit to be derived from the improvement of land, they recommend that the Government should bear the excess cost and carry out the works. They also recommend that a Central Drainage Department should undertake a survey of all the river-basins of Ireland and prepare a comprehensive scheme of drainage for each.

The Report is under the consideration of the Irish Government.

BANN DRAINAGE.

We mentioned last year that a report by Sir Alexander Binnie on this question was under the consideration of the Government. That report embodies a scheme for the improvement of the Lower Bann differing in certain important respects from those previously proposed; in particular, Sir A. Binnie calculates that by abolishing the navigation on the river it will be possible to attain certain results in the diminution of floods at a cost of £76,000; whereas our former Engineer, Mr. Dick, in his report of May, 1904, had estimated that £150,000 would be needed to produce any satisfactory result.

A copy of Sir A. Binnie's report having been sent to Mr. Dick, he wrote a further report, in which he dissents from Sir A. Binnie's conclusions, and maintains that the results at which Sir A. Binnie aims cannot be attained by the methods proposed.

In view of the importance of the question and the large sums of money involved, it was suggested that the points at issue should be referred to some eminent hydraulic engineer for settlement. In the meantime, however, the Irish Government has referred to Mr. Bell, a land valuer of experience, the question of the degree of improvement in the agricultural value of land to be expected from Sir A. Binnie's scheme, assuming it to produce the results intended; and Your Lordships have decided to await Mr. Bell's report before considering the question of obtaining a further engineering opinion.

Reports have been made to your Lordships on the following Bills:—

Waterford Corporation and Bridge.
Great Northern (Ireland) and Midland Railways.
Navigation Works (Ireland).
Armagh Urban District Council.
Midland Railway.
Mullingar, Kells, and Drogheda Railway.
National Trust.

We have the honour to be,

Your Lordships' obedient servants,

GEORGE C. V. HOLMES.
GEORGE A. STEVENSON.
PHILIP HANSON.

H. WILLIAMS, *Secretary*.

14th August, 1907.

APPENDIX (A.)

DETAILS OF VOTED SERVICES.

STATE RESIDENCES.

Vice-Regal Lodge.—Certain improvements have been carried out to the Overseer's cottage to render it more sanitary. The walls of the old portion of the cottage were found to be in a very decayed state, and they had to be rebuilt. The cottage is now much improved.

A bath, with hot and cold water supply, has been provided in the Head Gardener's house.

Under Secretary's Lodge.—The servants' bedrooms on the first floor of the laundry building have been altered and improved so as to render them fit for occupation by visitors, and a new staircase has been provided.

MILITARY AND NAVAL BUILDINGS.

Royal Hospital, Kilmainsham.—Improvements in the church have been effected. The Master's gallery and pew have been removed, and five new oak seats constructed for the Staff on the ground level. Portions of the old oak have been reinstated in the west end of the interior of the church.

The construction of a suitable ash depot and a paved area at the south-west corner of the institution have greatly increased the facilities for keeping the grounds in an orderly condition.

At the Infirmary the concrete paving of the yard has effected an improvement, and the cementing of the laundry building has, whilst rendering it damp proof, greatly improved its appearance.

Royal Hibernian Military School.—Good progress has been made with the new gymnasium for the boys, and the building is now being roofed.

The tillage land on the north side of the gymnasium has been levelled and formed into a recreation ground, three cricket pitches being laid down for the use of the boys.

The organ in the Church of Ireland Chapel having become quite unserviceable has been replaced by a new instrument.

The ventilation of the large dining hall has been improved by the insertion of extract ventilators in the roof, and inlet ventilators in the north and south walls.

The married quarters in the upper yard have been rendered more comfortable for the occupants by the provision of wash-up sinks with water laid on to each, a convenience which is much appreciated.

Ordnance Survey Office, Mountjoy Barracks, Dublin.—The old buildings at the entrance gate, formerly used as a canteen and guard room, have been removed, and the light and air space at the entrance has thus been much improved. The old and unsatisfactory sanitary arrangements at the Superintendent's house have been demolished, and improved sanitary accommodation has been provided.

Ordnance Survey Office, Ennis, Co. Clare.—The renewal of the gas mains and services has been carried out.

COAST GUARD AND ROYAL NAVAL RESERVE BUILDINGS.

Co. Cork, Brandon Quay.—A new station at Brandon Quay for one Chief Officer and six men, with office and boathouse, was completed and occupied early in 1906.

Co. Cork, Crookhaven.—A new station at Crookhaven for one Chief Officer and five men has also been completed, and was occupied in November, 1906.

Co. Down, Ardglass.—A provision of £750 was voted in the Estimates for 1906-7 for a new signal station at Ardglass, but the Admiralty decided not to proceed with the building pending the further consideration of questions affecting the continuance of Coast Guard Stations generally.

County Dublin, Dalkey.—A small store has been erected.

County Galway, North Aran Island.—The ruined lighthouse on the highest point of the island has been converted into a signal station, with a look-out house on the top. A new drain has been laid from the coastguard station to the sea.

County Galway, Clifden.—A new porch has been provided for the watchroom, and two concrete tanks have been erected.

County Galway, Roundstone.—A french drain, running the full length of the station, has been provided.

Co. Kerry, Bray Head.—The old tower on Bray Head has been adapted as a war signal station, and was occupied by the Coast Guard during 1906.

County Louth, Annagassan.—The two houses forming this station were vacated by the Coast Guard in November, 1906, and are now occupied by the Customs officers.

County Louth, Carlingford.—Water pipes have been laid on to this station and the two detached houses occupied by the Coast Guard, in anticipation of a supply of water from the new town water main which is being laid, and is now almost complete.

County Louth, Clogher Head.—An extension of the signal hut has been carried out to provide an additional room for telephone purposes.

County Louth, Duvany.—It was intended to carry out sanitary improvements at this station, but the work was not proceeded with, as the Admiralty withdrew the Coast Guard in November, 1906; the question of disposing of the property is now under consideration.

County Louth, Whitestown or Greenore.—The erection of the war signal station at Whitestown was commenced, and considerable progress was made with the building up to the end of the financial year. The station will be completed during the current year.

County Mayo, Ballyglass.—The external walls of the station have been plastered in Portland cement.

County Mayo, Rosemoney.—Two concrete water tanks have been constructed.

County Sligo, Pullendiva.—Two concrete water tanks have been constructed.

County Wicklow, Wicklow Head.—Additional accommodation has been provided at this station for three men, and a small store for flags, &c., near the semaphore and flagstaff.

CIVIL DEPARTMENTS.

Local Government Board.—In order to increase the space available for the storage of old records, and render them easier of access, a portion of the basement on the south side of the Custom House (river front) was fitted with shelves. This work involved some alteration and rearrangement of the Excise seizure stores.

Record Room and Offices, Four Courts.—In order to afford facility for examining Records after dusk, electric light was introduced into the large public search room, and has been found to be a convenience to the public during the winter months.

Record Tower, Dublin Castle.—Additional iron shelving has been erected.

Science and Art Museum, National Library, School of Art, Royal Dublin Society's Offices, &c.—The electric lighting has been remodelled throughout, the Board's generating plant being removed, and the Dublin Corporation three-phase public supply introduced; the hot water heating system has also been remodelled, the local boilers having been removed, and the whole heated by steam injection from the set of boilers in the Museum.

Extensive alterations and additions to the fittings of the National Library have been carried out, and the rooms hitherto occupied as a restaurant and gatekeeper's quarters have been added to the book stores.

New Workshops.—The house No. 14 Upper Merrion-street and the houses on the south side of Merrion-lane have been purchased in order to obtain sites for a workshop in connection with the Science and Art Museum, and a new workshop for this Board's staff of labourers.

Royal College of Science.—Some important alterations have been made, and additional fittings and equipment provided for the Geological, Bacteriological, and Mathematical Sections.

Chief Secretary's Office.—Some of the old floors, which showed signs of failure, have been strengthened with steel girders.

Temporary Commissions.—Special office accommodation was provided for the Departmental Committee of Inquiry into the Department of Agriculture and Technical Instruction, the Viceregal Commission on Irish Railways, and the Royal Commission on Trinity College and the University of Dublin.

General Valuation and Survey Office.—Additional accommodation has been provided for this Department in connection with the revaluation of the City of Dublin.

Land Commission Court and Offices and Estates Commission.—Temporary one storey buildings are in course of completion at the rear of the houses Nos. 25 and 26 Upper Merrion-street, in order to provide additional office accommodation for the Estates Commission.

For the same purpose a house has been taken at No. 16 Ely-place, and arrangements have been made to erect a large building at the rear of No. 23 Upper Merrion-street.

Principal Probate Registry.—Structural alterations have been carried out at this Registry, in order to increase the accommodation in the public office. The position of the counter has been altered, and access to the records has been rendered more convenient for the public and the officials.

Dundrum Central Criminal Lunatic Asylum.—An addition has been made to the gate-lodge to provide a new attendant's room.

DUBLIN METROPOLITAN POLICE STATIONS.

Central Bridewell.—The galvanized iron covers to the four main ventilators on the roof having become worn, were replaced by permanent covers designed in accordance with the architectural character of the building.

Bessboro' Police Barrack.—The ablution room has been fitted up with a range of porcelain lavatories with water laid on, which add greatly to the comfort of the men.

ROYAL IRISH CONSTABULARY BUILDINGS.

Depot, Phoenix Park.—A new mezzanine floor has been constructed at the Officers' Mess building, together with improved sanitary accommodation, which were much required to replace the old arrangements.

A domestic hot water supply has been provided in the Riding Master's quarters.

A coal shed has been provided in connection with each of the married men's quarters.

At the Commandant's quarters the kitchen and scullery accommodation has been much improved, and a new system of metal drains has been introduced.

Covered shelving has been provided in the squad rooms, which greatly assists in keeping the men's clothing free from dust.

A new temporary building has been constructed of timber and galvanized iron and heated by hot water for use as a messroom. It was found desirable to substitute this work for the storeroom, and the reconstruction of the larders, which were provided for in the estimates for 1906-1907, but had consequently to be postponed until the current year.

County Armagh, Portadown.—The local authority having taken steps to provide the town with a high-pressure public water supply a connection was made from the town main to the barrack.

County Clare, Ennis.—The men's wash-house and bathroom have been reconstructed and the out-offices and shed re-roofed and re-floored where necessary.

County Clare, Ennistymon.—Improvements have been made in the drainage arrangements at this barrack.

Galway, Eglinton-street.—A w.c. for sick men has been provided on the upper floor, and the sanitary arrangements at the rear have been improved.

County Galway, Errismore.—The window sashes and frames have been renewed throughout, and the drainage improved.

County Kilkenny, Castleromer.—The old Military Barrack which had been lying idle for about fifty years has now been adapted for the use of the Royal Irish Constabulary; two new cells with modern accommodation have been built; and quarters for a District Inspector and five constables have been provided in the old building.

King's County, Brinagher.—The drainage system at this Barrack has been reconstructed.

King's County, Shannon Bridge.—The detached constables' quarters at this Barrack have been partially rebuilt, and some improvements in the drainage arrangements effected.

County Leitrim, Carraterriff.—Arrangements have been made for the future maintenance of this Barrack by the Board.

County Mayo, Foxford.—The sashes and frames of thirty-two windows have been renewed.

County Westmeath, Mullingar.—Improvements have been made in the drainage at this Barrack.

PUBLIC EDUCATION BUILDINGS.

Dublin, Central Model Schools.—The second section of the work for the renewal of the sanitary accommodation has been completed, and wash-down independent closets have been substituted for the old latrines. The third section will be carried out in 1907-8.

Belfast Model Schools.—The boys' large school room on the ground floor which accommodated about 200 pupils has been divided into three by glazed folding partitions, and the class rooms so formed have been furnished with dual desks to replace the old worn out long desks. The large science laboratory on the upper floor has also been divided by a partition cutting off a portion of the room to form a much required additional class room for the preparatory division. The work was completed during the July vacation.

Londonderry Model School.—The boys' girls' and infants' school rooms have been divided by partitions. The boys' principal room is divided by longitudinal and transverse folding and glazed partitions into four rooms. One of these rooms is being fitted up as a science room. The large school rooms for the girls and infants have been divided into two rooms each by folding glazed partitions. The work was completed in January last, with the exception of the fittings for the boys' science room, which are now being supplied.

Kilkenny Model School.—The town water supply has been laid on to these schools, and a bathroom has been fitted up in the Headmaster's residence.

Waterford Model School.—Sanitary improvements have been carried out at this building, including the provision of new closets.

Sligo Model School.—The boys', girls', and infants' schools have been provided with suitable lavatories.

QUEEN'S COLLEGES.

Belfast, Chemical Department.—New buildings have been erected to complete the chemical section, including a new Lecture Theatre—(the Professor having hitherto lectured in a gallery in a detached building)—a Preparation Room, Museum, and a Sanitary Science Room. In the same block, on the top floor and in connection with the Pathological Department, a suite of rooms has been provided, including Professor's Laboratory, Demonstrator's Room, and Bacteriological and Medical Jurisprudence Rooms. The structure is almost completed, except furniture and fittings.

Physiological Department.—The Physiological Department at present consists of only one room for the combined purposes of Lecture Room, Practical Classroom and Histology Work. A new Practical Experimental Room, a Chemical Room and Histology Room are being added; also a small Balance Room. The work is practically completed except the fittings.

Medical Department.—A new Medical Lecture Theatre and Operating Room, with Lavatory and Lift to bring subjects from the cellars, have been provided; also a Preparation Room and sanitary accommodation for the Professors and Students.

New Arts Classroom.—In connection with this work several of the Classrooms have been improved, and Retiring Rooms for the Professors provided where there were none before, and the existing Retiring Rooms were improved.

The Greek Room had the defect in the ventilation adjusted, and a new lectern was provided for the Professor; also a Retiring Room, with suitable furniture.

A Retiring Room was provided for the Professor of Mathematics. New steel sashes with larger panes were supplied in the windows of his Lecture Room. The desks were re-arranged and the ventilation was improved.

The French Lecture Room had the ventilation improved, and a new desk and platform were provided for the Professor. A Retiring Room and Class Room were also fitted up. A new Retiring Room was provided for the Lady Assistant Professor.

The German Lecture Room had the windows fitted with new steel sashes. The ventilation was also improved, and the Retiring Room was furnished.

A new platform and desk were supplied to the English Lecture Room; the ventilation was improved, and a new Retiring Room was provided for the Professor.

The foregoing Lecture and Retiring Rooms were heated with a hot water heating installation. The work has all been completed satisfactorily.

Boundary Railing and Gate Lodge.—The low brick boundary wall enclosing the College grounds on three sides fronting to University-road, University-square and Botanic-avenue, which had become defective in many places through age, was removed and replaced by a plinth, with cut-stone coping, and an iron railing of simple but effective design. The side next University-road has, in addition, brick and cut-stone piers, with moulded caps and panels.

The new Gate Lodge, with Tower and Entrance Gate, has been erected at the front entrance from University-road. This work has all been completed.

General.—All the new buildings in connection with the Chemical, Pathological, Physiological and Medical Sections have been heated with hot water pipes and radiators, and the Students' Latrines have been extended and improved by forming a new jointless terrazzo flooring and facing the walls with white-glazed bricks, etc.

Physics and Engineering Departments.—A new practical Room, with a Classroom over, has been built and furnished for Physics, and a Room for the Professor; also Dark Room for Photography, an underground room for special work and Storerooms. A new Drawing Office and a Workshop have been built and fitted for the Engineering Department, together with Classrooms and a Retiring Room for the Professor. These rooms have all been provided with electric light and hot water heating. These works were all completed early in the summer, and the buildings have been occupied during the autumn and winter. Their commencement was referred to in the report for last year.

The Natural History Museum, which had no artificial lighting, has now been lighted with electric light.

The Lodge at rear entrance from Botanic-avenue occupied by the College Steward and his family, which only contained a living room, a sitting-room and two bedrooms, has had an additional bedroom built.

Cork.—The porter's lodge, on the western road, has been enlarged and altered, and now affords ample accommodation for a man with a family.

A room for operative surgery has been provided in a suitable position, and affords much-needed accommodation.

Galway.—Arrangements have been made for heating the anatomical department by hot water, and a new ceiling has been provided in the dissecting room.

The old heating apparatus in the medical building was found obsolete and past improvement, and in order that the students of medicine could use the building constantly, it became necessary to provide a new installation. The works were therefore carried out during the early part of the year, and have since given much satisfaction.

ROYAL IRISH ACADEMY.

Electric light has been introduced throughout the building.

ROYAL BOTANIC GARDENS, GLASNEVIN

A permanent mess-room for the outdoor workmen was erected in an angle adjoining the lower yard; a range and sink were provided, and the room is suitably furnished to enable the men to take their meals comfortably.

Some structural alterations were carried out at the men's lodge, and a bath-room and range of lavatory basins fitted on the ground-floor for the use of the students.

A large brick pit was erected in each of the yards to take the place of the old decayed frames. The sashes were fitted with an automatic stay-bar, as used at Kew Gardens.

REVENUE BUILDINGS.

Londonderry Inland Revenue.—The Income Tax Offices have been enlarged by certain re-arrangements, and a new storeroom has been provided.

Sligo Custom House.—The rear of this building has been plastered in Portland cement, and a new screen door and partition have been erected in the hall.

New Customs Stations have been established at the following places, consequent on the withdrawal of the Coast Guard therefrom:—

Annagassan, County Louth.
Ballyshannon, County Donegal.
Moville, County Donegal.
Robertscove, County Cork.
Skerries, County Dublin.

POSTAL AND TELEGRAPH BUILDINGS.

Dublin General Post Office.—The buildings on the site of the proposed extension in Prince's-street were of a dilapidated character, and have been removed so as to leave the site clear. The old workshops on the site were removed, and new shops erected at the rear of Aldborough House. These workshops now form the headquarters for the Board's workmen employed in connection with the maintenance of the buildings in an enlarged district.

The plans of the proposed extension of the General Post Office are still under consideration by the Postmaster-General.

The work of fitting up a fireproof chamber for Post Office wires at the General Post Office, Dublin, was carried out as far as the requirements of the Post Office Engineers' Staff would permit.

Two large skylights were formed on the north and north-east slopes of the roof over the Instrument Room, and the northern end of the room is much improved thereby with regard to lighting and ventilation, in both of which it was previously somewhat deficient.

Aldborough House Postal and Telegraph Stores.—The decayed stone cornice at the rear having partially fallen, the remainder, becoming dangerous, was removed, and a concrete cornice of somewhat less projection substituted. The remaining flank will be similarly treated in 1907-8.

Accounts Branch General Post Office.—The sanitary accommodation on the upper floor, No. 14 Upper Sackville-street, has been entirely remodelled, and new lavatory basins and closets provided. The ventilation has been improved by the formation of a lantern light in the roof.

Parcel Post Depot, Aniens-street.—The old concrete paving of the van yard, which was much worn, has been removed and has been replaced by Jarrah wood block paving.

College Green, Dublin.—The necessary purchase of superior interests in the buildings acquired by the Post Office Department has now been completed, and a contract for the proposed alterations and additions has been entered into and some progress made.

Portobello and James's Street Post Offices, Dublin.—New lavatories have been provided.

Belfast General Post Office.—The site which has been secured for an extension of the General Post Office is now enclosed. Sketch plans showing the accommodation to be had in the new building have been prepared and are under consideration by the Post Office Department.

The Money Order Branch in the Public Office, General Post Office, Belfast, has been rearranged by forming separate boxes or enclosures for the clerks conducting the different duties.

Co. Antrim, Portrush.—A site for a new Office and residence for the Postmaster has been secured and marked off and plans have been prepared.

Co. Armagh, Portadown.—A supply of water was laid on to this building from the new Town main.

Co. Clare, Ennis.—Tiled floors have been laid in the public office and porch; a new shed for handcarts and a new mails platform and porch have been erected; new entrance gates have been supplied; and various alterations to the public office and sorting room have been executed.

Co. Cork, Cork.—A contract for a new motor room, cycle shed and sundry other works, including the removal of the postmen's gallery, was entered into during the year, and the works were practically completed in March last.

Co. Cork, Bandon.—A contract has been entered into for a new Crown Post Office, at Bandon, and the building is now in process of erection.

Co. Galway, Ballinasloe.—An extensive scheme of alterations and additions has been nearly completed.

Co. Kerry, Caherciveen.—A new lineman's hut has been erected at this place.

Co. Kerry, Tralee.—A contract has been entered into for a new Crown Post Office at Tralee, and the building is now in process of erection.

A larger lineman's hut has been substituted for the old hut, which was too small and confined to work in.

Co. Leitrim, Carrick-on-Shannon.—A new post office has been erected in this town.

Co. Londonderry, Coleraine.—The yard and floor of cart shed and basket store which were gravelled, have been concreted.

Co. Londonderry, Londonderry.—The additions to this building were completed, also the heating of the whole building by hot water and lighting with electric light.

The basement of the old building has been laid with concrete and asphalt flooring divided by partitions and fitted with benches for the linemen. Means for the better admission of daylight have been introduced and electric light fittings installed.

Improvements were made at the entrance steps for the convenience of the public in approaching the new Public Office.

Co. Longford, Longford.—Considerable improvements have been effected in this Post Office.

Co. Louth, Drogheda.—The party wall on the east side of this building was put into proper repair, cemented and made watertight.

Co. Monaghan, Monaghan.—Provision was made in the Annual Estimates for commencing the erection of this building during the year, but owing to legal difficulties possession of the site was not obtained by the Postmaster-General before 31st March, 1907, and, consequently, the building operations had again to be postponed. The site was handed over to the Post Office in May, 1907.

Co. Westmeath, Mullingar.—Extensive improvements are now being carried out in this Post Office.

Co. Wexford, Wexford.—The sundry alterations required at this Post Office have been carried out.

PUBLIC PARKS AND GARDENS.

Phoenix Park.—The footpath in front of the gate lodge at the North Circular road entrance gate has been paved with concrete, thus effecting a much needed improvement. As an addition to the existing free sanitary conveniences in the People's Gardens a suitable w.c. and lavatory accommodation have been provided for use at a charge of 1d.

ROYAL HARBOURS.

Remarks by the Harbour Masters on the Fishing Industry and Trade at the several harbours will be found in Appendix D, pp. 51-55.

Kingstown Harbour, Co. Dublin.—Repairs to the East Pier sea-slope were carried out during the summer months, and the underpinning of the East and West Pier Wharf walls was continued. The coal berths at landward end of West Pier were carefully examined by divers, and all loose stones removed. The wharves, steps, banquettes and cycle track were maintained in good order. Timber work at the Mail Packet pier was renewed where necessary, and a complete examination of the masonry work was made by divers. Some 33,000 tons of spoil were dredged from the Harbour bed during the year and deposited at sea.

Extensive submarine repairs were carried out at the Boat Harbour slip and breakwater, in consequence of the foundations having become undermined. Fender piles were renewed at the Traders' and Victoria Wharves where necessary, and a new 2 ton crane provided and erected at the yacht slip. The Harbour moorings above and below water were carefully examined, and all buoys overhauled and painted.

The sand-pump dredger was let for a period to the Portrush Harbour Company, and excavated a quantity of about 18,000 tons from the Harbour.

Houth Harbour, Co. Dublin.—Some protection work was carried out to the rubble of West Pier, the coastguard boatslip, and the pitching along the slope of the public road wall between the East and West Piers. The timber guard kerbing at the edge of the coal berths was repaired, and two additional lifebuoy stands were provided. The wharves, steps, etc., and the Kilrock road were maintained in good repair. The entrance and hauling buoys were overhauled, and they and the plant generally, afloat and ashore, were kept in good order. Some 8,600 tons of spoil were dredged from the Harbour entrance and its vicinity, and deposited at sea, and tidal excavation was also carried out by ordinary labour at the East Pier head.

Dunmore East Harbour, Co. Waterford.—The pier, breakwater, wharves, steps, roads and works generally were maintained in good order, repair, and efficiency.

Ardglass Harbour, Co. Down.—The works were well and satisfactorily maintained during the year. A new iron accommodation ladder was provided at the new pier wharf, and a concrete ramp-wall was built at the shore end of the storm-wall to prevent heavy seas coming over the wharf. Wrought iron beacons were erected on the Churn rock, and on the reef to the north of the Churn. Some excavation was carried out in the Harbour bed, and the North Harbour channel was deepened.

Donaghadee Harbour, Co. Down.—The storm damage repairs which have been in hand for several years were pushed forward, and with the exception of a concrete apron at the toe of the block course of the North slope were practically completed. It is expected that the entire work will be finished by the end of 1907. A new wrought iron ladder was fixed at the South Pier slope, and the roads, quays, offices, stores, and plant were well maintained during the year.

DOCK REGULATIONS AT ROYAL HARBOURS, MARINE WORKS, &c.

In addition to the ordinary maintenance of the five harbours above-mentioned, we have incurred expenditure there and at the marine works constructed by us under the Marine Works Act of 1902, and also on the Shannon Navigation, by complying with the Docks Regulations made by the Home Office in 1904 under the Factory and Workshop Act, 1901. These regulations were made to provide for the safety of persons employed loading, unloading, and handling goods in or on any dock, wharf, or quay, and they direct *inter alia* that dangerous places shall be fenced, that adequate life-saving apparatus and sufficient light shall be supplied, and that precautions for the safe user of cranes and machinery shall be taken. We have accordingly ordered all necessary work to be undertaken in order to comply with these Regulations, and this has necessitated the fencing of steps and dangerous corners of piers and wharves, the erection of additional lamps and the supplying of hanging chains and life-buoys about the harbours, and in the case of all cranes the marking of the safe-load on each, the periodical testing of the chains, and the fencing of cog-wheels and other dangerous parts of the machinery.

SEANSON DRAINAGE.

The sluices and works in connection therewith at Killaloe, Meelick Cut, Keelogue, Athlone, Tarmenbury, Roskeel, Jamestown, and Lough Allen were maintained in good order and repair, and six new worm-driven winches were provided to replace the small winches previously in use.

RIVER MAIGUE NAVIGATION.

The bridge, collector's house, and quay were maintained in good order, and an acetylene gas lamp was erected at the approach to the swing bridge. Some 1,600 tons of silt were cleared from the harbour by tide work.

APPENDIX (B).

DETAILS OF NON-VOTED SERVICES.

ARTERIAL DRAINAGE.

5 & 6 Vic. c. 89; 26 & 27 Vic. c. 88; 27 & 28 Vic. c. 72; 28 & 29 Vic. c. 52; 32 & 33 Vic. c. 72; 35 & 36 Vic. c. 31; 37 & 38 Vic. c. 32; 41 & 42 Vic. c. 59; 43 & 44 Vic. c. 27; and 55 & 56 Vic. c. 35.

Dunderry Drainage District, Co. Meath.—The works in this district were brought to completion, but owing to the delays already reported, and consequent claims by the Contractor, the issue of the final award has been delayed.

Forney Bridge and Ballynabow Drainage District, Co. Tipperary.—As the result of the correspondence with the Drainage Board referred to in the Report for 1905-6, an extension of time was granted for the completion of the works until 30th June, 1907, as owing to the advent of the winter season it was impossible to finish them off last year.

Pallas Drainage District, Co. Tipperary.—Work in this district has continued during the year, and was reported complete on 5th March, 1907, but the requisite plans, etc., were not furnished up to the end of the financial year, and no inspection could therefore be made. As soon as the requirements in this respect have been complied with the inspection will be put in hand.

DRAINAGE MAINTENANCE.

29 & 30 Vic. cap. 49, &c.

Boley Drainage District, Co. Galway.—Some useful work was done in this district by the Drainage Trustees, who were urged to proceed further with it during the coming season.

Deel Drainage District, Counties Meath and Westmeath.—The works in this district, commenced in 1905-6, were continued and brought to completion in the past year at a total cost of about £2,381, or £19 under the Engineer's estimate; the gross charges amounted to £2,491 5s. 5d., inclusive of interest, etc. The charging order could not be issued before the close of the financial year owing to the necessity for perfecting a conveyance to the Trustees of an additional plot of land acquired for the proper execution of the works.

Inny Drainage District, Counties Longford and Westmeath.—The works in this district, commenced in 1905-6, were continued and brought to completion in the past year at a cost of about £1,652, or about £48 under the Engineer's estimate; the gross charges amounted to £1,718 7s. 1d., including interest, etc. It was not found practicable, however, to issue the charging order prior to the close of the financial year.

Moyné and Crusspatrick Drainage District, Co. Mayo.—Application was made for a loan for the purpose of carrying out certain works of restoration in this district, and after inspection, which showed the district was in a very neglected condition, the loan was approved. The matter has been delayed, however, owing to the failure of the Trustees to complete the necessary documents, and no work was done towards cleaning up the district during the year.

GALWAY MILLS.

41 & 42 Vic., Cap. 212.

A question arose in the early part of the year which has proved very difficult of settlement. Conflicting interests were created under the several awards relating to drainage, navigation, and mill power in Galway in 1859 and 1860, and it is claimed on behalf of some of these interests that alterations have been made in the works since the awards were made. Should this prove to be the case, cause of action would, no doubt, lie against the Trustees responsible for the works in which the changes have been made, but the matter is very intricate, and is complicated by the difficulty of determining when the changes (if any) were made.

MARINE WORKS (IRELAND) ACT, 1902.

2 Ed. VII., cap. 24.

The works at Cape Clear, Co. Cork; Liscannor, Co. Clare; Kilronan and Cleggan, Co. Galway; Gortnasate, Portnoo, and Downies Bay, Co. Donegal, were continued during the year, and with the exception of Liscannor, Cape Clear, Gortnasate, and Portnoo, were completed. Of these four, Portnoo only requires the removal of a trifling amount of rock below low water, which the Contractor has found some difficulty in dealing with. Gortnasate is also finished, except for some rock excavation. Cape Clear has been finished since the close of the financial year, and as regards Liscannor, the Contractors are desirous of being relieved of a portion of the excavation called for under their contract, which has otherwise been finished. No further works were brought within the provisions of the Act prior to 31st March, but preparations to start work at Falchorrib, Co. Donegal, were made, and operations were commenced shortly after the close of the year on receipt of the Lord Lieutenant's certificate. It is anticipated that a certificate will be issued shortly in the case of Renard Point Pier, Valentia, Co. Kerry, and preliminary arrangements are being made for a start at that place as soon as the necessary authority has been given.

SEA FISHERIES (IRELAND) ACT, 1883.

46 & 47 Vic., cap. 26.

The works at Passage East, Co. Waterford, were carried out in ferro-concrete on the Hennebique system in a very satisfactory manner. The constructive portion was completed in the fall of the year. The process of excavating the harbour has proved both tedious and costly, owing to the tenacious character of the mud, the very confined space in which the dredger has to manoeuvre, and the shallowness of the harbour (which has precluded her working except on very favourable spring tides), and, finally, the regulations of the Waterford Harbour Commissioners. These prescribe an unusually long distance to which the excavated material has to be carried before being discharged, amounting to over sixteen miles' steaming for the dredger going and returning.

Portavogie Pier, Co. Down.—Negotiations have continued with the local authorities during the past year, and several schemes have been under consideration. A modification of the design of the local authorities has been prepared and submitted to them, and it is hoped that the matter may be brought to an issue in the present year.

Lady Elizabeth's Cove, Traamore.—An inspection was made from this Office in connection with the work of restoration of this pier carried out by the Department of Agriculture and Technical Instruction for Ireland for the Waterford County Council, which it was claimed interfered with the launching of the coastguard boat. Investigation showed, however, that, as regards the particular portion affected, the work executed was limited to restoration of that originally carried out by this Board before the boat-house was constructed, although the pier itself is not on the same site.

RAILWAY CLAUSES CONSOLIDATION ACT.

8 Vic., cap. 20.

An amending certificate of the minimum dimensions of culverts and waterways was issued in the case of the Castleblayney, Keady, and Armagh Railway, this having been rendered necessary by two deviations from the route originally shown on the land plans lodged with the Board.

SHANNON NAVIGATION.

Dredging was carried out at Banagher, Woodford River, Mountshannon, Seariff, Bunnawn, Cussane, Errina, Clonlara, Kylesnoe Harbour (Lough Derg), Belle Isle, Sleevoyre, Terryglass, Portumna, Victoria Dock, and Shannon Bridge, a quantity of 10,500 tons of spoil being removed. The locks, swivel-bridges, banks, roads, tow-paths, drains, fences, wharves, piers, weirs, buoys, beacons, buildings, cranes, and plant afloat and ashore were maintained in good order. The traffic shows an increase over the previous year, the figures being:—

1906-7,	91,181 tons.
1905-6,	89,498 tons.
Increase,	1,683 tons.

IRELAND DEVELOPMENT GRANT.—SEAM DREDGER "SISTRUP."

The dredger remained at Galway from 1st April to 14th May, 1906, during which period she lifted 7,050 tons of spoil. She then went to Limerick where she was surveyed, scraped and painted, and the engines overhauled, proceeding to Dingle on 23rd May; she remained at Dingle till 26th September, 1906, having dredged a quantity of 66,250 tons during her stay.

On 8th October she was dry-docked at Passage West, Queenstown, and underwent considerable repairs and alterations before proceeding to Passage East, County Waterford, at which place, and at Duncannon in Waterford Harbour, she was engaged till the end of the financial year. As elsewhere reported, she experienced great difficulty in dealing with the accumulation at Passage East, and only lifted 10,590 tons during her stay there. At Duncannon she dredged a quantity of 4,000 tons.

The total dredgings for the year amounted to 87,890 tons, or some 30,000 tons less than the quantity obtained in the previous financial year, when the conditions were more favourable.

TRALEE AND DINGLE RAILWAY.

Specifications were prepared for the new carriage and waggon stock and orders placed with the makers for same. It is hoped that the whole of the stock will be delivered very shortly. The Parliamentary Plans of the proposed deviations were passed by the Privy Council in January, 1907, and an immediate start was made in pegging out the centre line of Railway and in preparing designs for the proposed new works. Contracts for several works in connection with alterations and improvement to stations have already been entered into. Steps towards the acquirement of the lands necessary for the deviations, &c., are now being taken.

Several schemes relating to the expenditure of moneys proposed to be provided out of this fund were inquired into and reported on for the Irish Government, amongst which the following may be enumerated, viz. :—

- (a) *Harbours* : Arklow, Ballywillan, Ballycastle, Dingle, Drogheda, Magilligan, Portavogie, Sligo, Tralee and Fenit, Westport, and Wexford.
- (b) The Murrough of Wicklow.
- (c) Barrow (Fenit) Sands.
- (d) Dungarvan and Cunnigar Bridge.
- (e) *Railways* : Ulster and Connaught (Newry, Keady and Tynan, and Arigna and Roskeery), Mullaranny and Belmullet, Glenties and Ardara, Listowel and Tarbert, Strickstown and Dromed, Schull and Skibbereen.
- (f) *Bank Drainage*.

ARBITRATIONS UNDER "THE RAILWAYS (IRELAND) ACTS" (1851, 1860, 1864).

14 & 15 Vic., c. 70 ; 23 & 24 Vic., c. 97 ; and 27 & 28 Vic., c. 71.

Arbitrations have been applied for and Arbitrators appointed in the following cases :—

- Great Northern Railway Company (Ireland). Lands required under the Great Northern Railway Act, 1905.
- Great Southern and Western Railway Company. Lands required at Clonmel under Great Southern and Western Railway Act, 1903.
- Midland Great Western Railway Company. Lands required in counties of Meath and Mayo under their Act of 1903.
- Strabane, Raphoe, and Convoys Railway Company. Additional lands required under their Act of 1904.
- The Right Hon. Earl Fitzwilliam. Rights over public street and quay, Wicklow, for the purposes of the Wicklow Tramways Order, 1905.
- Dublin Port and Docks Board. Lands required for the widening of the North Wall Quay under their Act of 1902.

INQUIRIES INTO TRAMWAY PROJECTS.

23 & 24 Vic., c. 152 ; 24 & 25 Vic., c. 102 ; 34 & 35 Vic., c. 114 ; 30 & 40 Vic., c. 65 ; 44 & 45 Vic., c. 17 ; and 46 & 47 Vic., c. 43.

Inquiries were held into the following schemes and reports were made on the Engineering merits of the projects :—

Tralee and Dingle Railway : Deviations and Abandonments.

LAND IMPROVEMENT ACT, 1864 ; LIMITED OWNERS' RESIDENCES ACTS, 1870, &c.

27 & 28 Vic., c. 113 ; 34 & 35 Vic. c. 24 ; 40 & 41 Vic. c. 31, &c.

No Provisional or Absolute Orders have been made under these Acts during the year.

One application for a Provisional Order has been received, and an application for an Absolute Order on account of completed works has been entertained.

APPENDIX (C).

LOANS.

CLASS (I).—LOANS SECURED ON UNDERTAKINGS.

Labourers' Dwellings in Towns and Housing of the Working Classes.
Nos. 7 and 8 in Abstract, p. 76.

Labouring Classes' Dwellings (Ireland) Act, 1866 (29 & 30 Vic., c. 44), and the Housing of the Working Classes Act, 1885, 1890, and 1893 (48 & 49 Vic., c. 72; 53 and 54 Vic., c. 70, and 56 and 57 Vic., c. 33).

The amount of loans sanctioned under the Act of 1866 while it continued operative, i.e., to the close of the year 1884-85 was £281,384. The number of dwellings erected was 3,416. The rate of interest charged was 4 per cent.

During the year under report 17 applications, amounting in all to £64,925, have been received for loans under the Housing of the Working Classes Act, 1890. Of these applications 12, representing £29,750, were made by Urban District Councils, and 5, amounting to £35,175, by public companies or private individuals. The loans sanctioned—13 in number, representing £57,350—may be similarly divided into 10 for £25,900 to Urban District Councils, and 3 for £31,450 to companies and private individuals. The loans to Urban District Councils are made under the provisions of the Public Health Acts, and are generally for the erection of working class lodging houses.

The following table shows the number and amount of the loans made each year since 1866, when the first of these Acts was passed:—

Year.	No. of Applications sanctioned.	Amount sanctioned.	No. of Families to be accommodated.
		£ s.	
1866-67,	—	—	—
1867-68,	1	638 0	5
1868-69,	—	—	—
1869-70,	1	500 0	10
1870-71,	1	4,144 0	125
1871-72,	2	1,450 0	44
1872-73,	3	7,175 0	108
1873-74,	7	22,350 0	261
1874-75,	1	910 0	15
1875-76,	7	24,242 0	259
1876-77,	6	11,100 0	132
1877-78,	3	23,614 0	272
1878-79,	19	7,100 0	81
1879-80,	19	31,858 0	351
1880-81,	17	23,870 0	302
1881-82,	17	33,674 0	453
1882-83,	16	21,187 0	270
1883-84,	16	45,092 0	397
1884-85,	12	25,368 0	328
1885-86,	20	50,755 0	713
1886-87,	24	78,161 0	852
1887-88,	20	34,745 10	397
1888-89,	26	53,752 10	575
1889-90,	16	45,319 0	603
1890-91,	20	43,413 0	628
1891-92,	11	10,164 0	135
1892-93,	8	44,270 0	481
1893-94,	7	11,463 0	56
1894-95,	9	36,209 0	182
1895-96,	7	16,120 0	211
1896-97,	12	83,243 0	255
1897-98,	4	15,836 0	177
1898-99,	5	49,655 0	382
1899-1900,	13	30,306 10	207

1905-1906,	5	45,635 0	264
1906-1907,	13	57,350 0	511
Total,	431	1,178,217 0	11,482

CLASS (II).—LOANS SECURED ON RATES.

*Loans to County Councils, omitting those for Lunatic Asylums.**No. 9 in Abstract, p. 76.*

The number of loans sought for the general purposes set forth in the Application of Enactments Order, 1898 (Article 22), was fourteen, and the amount applied for was £9,694 7s. 6d. Last year the applications numbered twelve, and the total amount sought was £26,460. Thirteen loans representing £13,795 were sanctioned during the year.

*Public Libraries, Industrial Schools, and Reformatories.**No. 11 in Abstract, p. 76.*

One application for a loan of £300, for the purposes of the Public Libraries Act, was received during the year.

District Schools.

No applications for loans for District Schools were received during the year.

Lunatic Asylum Buildings. No. 16 in Abstract, p. 76.

Eight applications for loans, amounting to £21,452 14s. 8d. have been received during the year. The applications numbered ten last year, and the amount sought was £26,478. Eight loans, amounting to £30,473, were sanctioned during the year.

Public Health Acts. Nos. 19 and 35 in Abstract, pp. 76 and 78.

The loans sanctioned under the Public Health Act of 1878 numbered 56, and reached in amount £103,847, as against the corresponding figures, 35 and £51,377, for the previous year. The following table contrasts the two years in detail:—

PURPOSE.	1895-1905.		1906-1907.	
	Number of Loans.	Amount.	Number of Loans.	Amount.
		£		£
Water Works,	15	27,011	33	74,931
Sewerage,	6	14,976	10	22,215
Buildings, Public Lighting, Markets,	9	5,480	10	4,500
Streets, Paving, &c.,	7	3,910	3	2,309
	35	£51,377	56	£103,847

The total amount of loans authorised for sanitary purposes since the passing of the Public Health Act, 1874, stood at £3,659,161 on 31st March, 1907, and the total amount issued at £3,528,964.

The distribution of the sum authorised amongst different sanitary purposes is as follows:—

	£
Water Works,	1,486,970
Sewerage,	513,484
Buildings, Public Lighting, Cemeteries, Parks, Markets,	941,366
Streets, Paving, &c.,	717,441
	£3,659,161

Labourers Acts. No. 21 in Abstract, p. 76.

Loans were sanctioned under the Labourers Acts, 1883 and 1885, for sums amounting to £158,292 but these sanctions apply only to the portion of the financial year ending on 31st October, 1906. The Labourers' (Ireland) Act, 1906, which came into operation

on the 1st November, 1906, transferred the administration of the loans under these Acts to the Land Commission. Up to the date of transfer the amounts sanctioned from the commencement of the service were as follows:—

	£	
1884-85,	820,998	
1885-86,	188,742	
1886-87,	89,682	
1887-88,	106,427	
1888-89,	50,436	
1889-90,	117,998	Amount sanctioned for each Province:—
1890-91,	45,390	£
1891-92,	124,133	Munster, 1,714,361
1892-93,	118,367	Leinster, 1,370,692
1893-94,	125,074	Connaught, 85,212
1894-95,	50,616	Ulster, 456,098
1895-96,	46,468	
1896-97,	29,816	
1897-98,	101,103	23,424,493
1898-99,	335,110	
1899-1900,	381,860

1904-1905,		
1905-1906,		
1906-1907 (part of),		
Total,	£3,628,493	

The advances made under the Acts in 1906-1907, on account of loans sanctioned up to the 31st October, 1906, amounted to £219,017, bringing the total advanced to £3,847,510.

Dispensary Buildings. No. 22 in Abstract, p. 76.

Five applications for an aggregate sum of £3,885 were received within the year, as compared with thirteen applications for a total sum of £13,482 last year. The sanctioned loans for the year numbered eleven, and the amount sanctioned was £10,310.

Workhouse Buildings. No. 23 in Abstract, p. 76.

The applications for loans for Workhouse Buildings were nine in number, and amounted to £9,478 18s. 1d. The number of loans sought last year was twelve, and the amount £34,035 13s. 0d. The sanctioned loans for the year numbered ten, and the amount sanctioned was £11,079.

Acquisition of Small Dwellings. No. 24 in Abstract, p. 76.

No applications for loans were received during the year.

Technical Schools. No. 25 in Abstract, p. 76.

Three applications were received during the year for loans amounting to £17,600 for the purpose of building Technical Schools, and two loans amounting to £17,500 were sanctioned.

CLASS (III).—LOANS SECURED ON LANES.

This class comprises, in addition to loans made to tenants for purchase of their holdings, in accordance with the provisions of the Land Act of 1870 (under which no advances are now made), the following loans, having for their object the improvement of land:—

- (a.) Loans for Arterial Drainage under 5 & 6 Vic., c. 89.
- (b.) Loans for Arterial Drainage works under 26 & 27 Vic., c. 68, and loans made for the Maintenance of Arterial Drainage works (29 & 30 Vic., c. 49).
- (c.) Loans to "Owners" of lands for Improvements under 10 Vic., c. 32, and amending Acts; and under sec. 19 of the Land Act of 1881 (44 & 45 Vic., c. 48).
- (d.) Loans to Owners of lands for Improvements under sec. 31 of the Land Law Act, 1881 (44 & 45 Vic., c. 48).

Arterial Drainage. Nos. 26, 27, and 41 in Abstract, pp. 76 and 78.

From 1842 to 1863 loans for Arterial Drainage were made under 5 and 6 Vic. c. 89 £2,082,052 was lent under this statute, the greater part during and after the famine of 1849. Of this amount £1,207,582 was remitted, and £874,447 repaid. The amount of principal not repaid £23 was written off by the Public Works Loans Act, 1905.

From 1863 loans for this purpose have been made under the Drainage and Improvement of Lands Act (Ireland), 1863, 26 and 27 Vic. c. 88, and amending Acts. The entire amount of such loans up to 31st March, 1907, is £853,275, including £6,136 lent out of the Irish Church Fund.

The amount advanced to 31st March, 1907, under 29 & 30 Vic., cap. 49, for Drainage Maintenance, is £63,262.

LAND LOANS SERVICES.

The following table gives (1) the number of applications for loans and the amounts issued under the Land Improvement Acts, 10 Vic. c. 32; 13 & 14 Vic. c. 19; 29 & 30 Vic. c. 40, &c., No. 28 in Abstract, p. 78, in each year, from 1847, when this service commenced, to 31st March, 1907; (2) similar information as to loans, under sec. 81 of the Land Law Act of 1881 (made principally to tenants), from 1881 to 31st March, 1907.

The figures as to the last-mentioned loans should, strictly speaking, come under the head relating to them (pp. 48, 49), but it has been considered desirable to present in one view the operation of both services, which have a common object.

LAND IMPROVEMENT ACTS 10 VIC., c. 32, &c.

The transactions under the Land Improvement Acts reached their lowest point in the number of applications in 1888-89. Since that year there has been a decided though not continuous increase. The number of applications received during the year 1906-1907 was 481 under the Land Improvement Acts, an increase of 32 as compared with the previous year. Of the applicants, 374 were purchasers under the Land Purchase Acts.

The following particulars relate exclusively to loans under 10 Vic., c. 32 :—
Classification of loans under which works were commenced in 1906-1907 :—

Class of Work	No. of Loans under which works were commenced.	Amount Sanctioned.	Average of each loan.
		£	£
Drainage and other Works on Lands,	8	3,130	391

MAINS AND THOROUGH DRAINAGE OR OTHER FIELD WORKS.

The number of Land Improvement loans sanctioned for works of which thorough drainage or other field works form the principal part, since the commencement in 1847 to the 31st March in this year, is 8,466, for £3,774,392, and of this number 14, for an aggregate of £4,130, were approved during the year ended 31st March, 1907.

PLANTING FOR SHELTER.

Since the passing of the Act 29 and 30 Vic., c. 40, under which advances are made for this purpose, 146 loans, amounting to £33,600, have been made. Two loans were sanctioned for this purpose exclusively during the current year.

FARM BUILDINGS.

Under this head 6,324 loans have been sanctioned since the passing of the Act 13 and 14 Vic., c. 19, the amount being £1,582,765. This includes 293 loans, for an aggregate of £31,073, approved during the past financial year.

DWELLINGS FOR AGRICULTURAL LABOURERS.

The number of loans sanctioned since the passing of the Act 23 Vic., c. 19, which first authorised them, is 948, for £394,639, of which 17, amounting to £2,670, were approved in the year.

Under section 19 of the Land Law (Ireland) Act, 1881, loans were made to tenant farmers, who, pursuant to the injunctions of the Irish Land Commission, and as a condition attached to the fixing of a "fair rent," proceed to erect labourers' dwellings on their holdings. Such tenants are deemed to be persons to whom a loan may be made under the Landed Property Improvement (Ireland) Acts, for the improvement or building of dwellings for labourers, as if they were owners within the meaning of the Act 10 Vic., c. 32, sec. 7. No loan was sanctioned under the 19th section of the Land Law Act, within the year ending 31st March, 1907. Two hundred and sixty such loans, amounting to £15,275, have been sanctioned under the Act since it came into operation, the instalments issued amounting to £13,880. Operations under the 19 Sec. of the Land Law Act have however practically ceased owing to recent legislation which empowers Local Authorities to borrow for the erection of Labourers' Dwellings; but loans are still made under the 31st section of that Act for this purpose. See Table of Expenditure under this section, p. 50.

The following table shows the number and amount of Loans sanctioned for Dwellings for Agricultural Labourers under the Act 23 Vic., cap. 19, and the Land Law (Ireland) Act, 1881, sec. 19, since the passing of the Labourers Acts, 1883 and 1885.

Loans to Tenants for Improvement of Holdings, or "Land Law Loans."

LAND LAW (IRELAND) ACT, 1881, Section 31. No. 30 in Abstract, p. 78.

The great body of loans to tenants for improvements are made under this Act. The number sanctioned during the year was 427, amounting to £27,300; the total of the sums issued during the year was £28,038. The total number of loans sanctioned under the section from the date of the Act to 31st March, 1907, is 19,142. The aggregate of the amounts sanctioned is £1,532,662, and the instalments issued amount to £1,341,842.

The number of applications for loans lodged during the year 1906-1907 was 619, being a decrease of 87 as compared with last year. Of this number 146 were received from occupying owners who were disqualified by some feature in their application from proceeding under the Land Improvement Act.

An explanation of this decrease which, however, is not as marked as that in the preceding year, is to be found in the fact that the consideration of applications for improvement loans from tenants who are purchasing their holdings under the provisions of the Irish Land Act of 1903, is in a large measure deferred until the sales have been completed, and the sums have been legally vested in the new owners. When holdings are vested the applications come, as a rule, under the Act 10 Vic., cap. 32.

The following table gives the distribution by Counties of the sums issued for all classes of work under the 31st Section of the Land Law (Ireland) Act, 1881, from the passing of the Act:—

	1,387,221 18 10	33,980 19 11	1,421,202 18 9

The number of loans in which the amounts sanctioned have been expended and the works certified as completed on the 31st March, 1907, is 16,802.

CLASS (IV.).—MISCELLANEOUS LOANS.

Globe Loans. No. 32 in Abstract, p. 78.

Thirty applications for loans, amounting to £9,535 13s. 4d., were received during the year, as compared with twenty-three applications, amounting to £11,352 13s. 4d., last year. The number of loans sanctioned was twenty-three, and the amount £8,072. The issues for the year amounted to £7,390. Since the passing of the first Act in 1870 1,859 applications have been received. The following is an abstract of loans sanctioned on which issues were made wholly or in part to the 31st March, 1907, and in respect of which a total sum of £654,964 has been advanced.

Denomination.	No.	Amount.
		£
Roman Catholic,	920	405,519
Church of Ireland,	318	151,075
Presbyterian,	227	74,689
Wesleyan and others,	101	32,145
	1,566	£663,428

National School Teachers' Residences. No. 34 in Abstract, p. 78.

Forty-three applications for loans, amounting to £9,537, were received during the year, and thirty loans, amounting to £7,222, were sanctioned. Last year there were thirty-nine applications, amounting to £8,482. The amount actually advanced in the year was £6,901. The total advances for loans of this class from the passing of the Act to the 31st March, 1907, amounted to £250,259, and the total number of sanctioned loans was 1,214.

National Schools and Training Colleges. No. 35 in Abstract, p. 78.

Four applications, amounting to £1,190, were received within the year. Last year ten applications were received for a total sum of £4,150. Seven loans, amounting to £3,940, were sanctioned in the year. The loans dealt with related to National Schools only.

CLASS (V).—IRISH CHURCH FUND LOANS.

No loan or advance under previous loans was made from this fund during the year.

Out of £1,269,933 advanced from the Irish Church Fund under the Relief of Distress Act of 1880, £965,364 has been repaid, £43,625 has been remitted, and of the balance outstanding, £260,943, £245,308 is not yet due, £6,507 is regarded as irrecoverable, and £9,228 is in arrear.

The rate of interest on these loans is 1 per cent., but borrowers are allowed to redeem their principal liabilities on the basis of 3 per cent. interest. The principal cancelled by such redemptions now amounts to £34,549, including £9,558 in the present year.

The boats or yawls that fished out of this Harbour for the past year caught 2,681 score of fish; the amount of money realised was £499 19s. 6d.

The Belfast and County Down Railway Steamer made about 8 calls. It landed on the pier head about 480 passengers, and took about the same number away.

KINGSTOWN HARBOUR, COUNTY DUBLIN.

Nothing out of the ordinary course of work connected with this Harbour calls for remark. The usual duties of keeping the fairway clear for mail steamers, mooring and anchoring of vessels, have been carried on, and on the whole in fairly fine weather. As reported last year, vessels using the Harbour for anchorage and shelter have usually been wind bound and not weather bound.

HOWTH HARBOUR.

The imports for the past year were :—Coal, 3,487 tons ; and the exports :—Nil.

The hock line fishing resulted in takes for the year amounting to 9,913 cleaves, realising £7,730 11s., being an average of 15s. 7d. per cleave. This shows an increase of 2,777 cleaves as compared with the previous year, and also an increase of £2,090 17s. in receipts. A cleave may be taken as representing about 10 stone weight.

7,623 mense of herrings were landed, the price realised being £5,743 9s., an average of 15s. 0½d. per mense. This shows an increase of 512 mense as compared with last year, the receipts were £845 19s. less, and the price obtained per mense was 1s. 1½d. lower. A mense or maze in Irish fish measure may be taken at 613 fish. 86 boats were employed : these included 9 Cornish, 14 Scotch, 1 Manx, and 62 Irish boats.

The total value of fish landed last year as compared with the previous year is shown as follows :—

	1906-06.	1906-07.
Hock Fish,	£5,839 14 0	£7,730 11 0
Herrings,	6,582 8 0	5,743 9 0
Total,	£12,329 2 0	£13,474 0 0

The following table shows the number and tonnage of vessels entering the Harbour during the year ended 31st March, 1907 :—

Description	No.	Tonnage.
Cargo vessels,	18	1,103
Windbound, &c.,	7	217
Fish carrying,	2	143
Fishing boats,	127	2,756
Yachts,	11	150
Total,	165	4,369

DUNMORE EAST HARBOUR.

The spring herring fishing commenced on the 1st of February and ended on the 28th of June. The autumn fishing commencing on the 17th of August ended on the 7th of December. It was about equally successful with the previous year's fishing, but the fish caught was of mixed quality.

As has been usual a good deal of deep sea trawling has been carried on very successfully off this harbour during the past year by English boats, the fish being run to Milford direct from the fishing ground.

The import of coal was 1,919 tons, being an increase of 47 tons over last year.

The other imports were :—Salt, 424 tons ; bricks, 275 tons ; gravel, 40 tons, and sand, 20 tons.

The exports were :—6 tons of oats and 150 tons of bunker coal.

RETURN showing the Harbour Service for the Twelve Months ending
31st March, 1907.

Shipping.—Tonnage entering the harbour to discharge or load, 45 vessels, 2,378 tons ; cargo vessels entering the harbour for shelter, 8 vessels, 334 tons.

Fishing boats engaged fishing off this harbour—47 Scotch, 37 Cornish, and 47 Irish—total 131 boats, 2,959 tons.

Fishing boats entering the harbour for shelter—22 Cornish, 4 Manx, 13 Irish—total 39.

Tug boats and yachts entering the harbour for shelter—tug boats 8, yachts 8—total 16.

Fish captured and price—Herrings, 10,498 mense ; average price, 11s. 2d. per mense ; total price, £5,861 17s. 9d.

Trawl and other fish, 1,062 cwt. ; average price, 9s. 7d. per cwt. ; total price, £510 6s. 4d.

ARDGLASS HARBOUR, COUNTY DOW.

The fishing commenced on 29th April and finished on 13th October, 1906. The total quantity captured during this period was 12,496 mease, being 420 mease less than 1905, while the money realised for same was £7,795 7s. 6d. as compared with £7,678 in 1905.

The prices for the season were good compared with the previous year, ranging from 10s. to 20s. per mease. There was practically no herring curing carried on this season. The number of boats taking part in the fishing was much the same as the previous year, numbering about forty-eight Irish, twenty-one Scotch, and three Isle of Man. It will be seen that the average mease per boat was about 173. Of this by far the greatest quantity was captured by the Scotch boats, and may be accounted for by their being in possession of better gear and appliances than the Irish boats.

The mackerel captured during the season at Ardglass was seventy-two barrels, which realised £28 5s. 6d.

During the winter there was scarcely any long line fishing, as weather was too bad for small boats to leave the harbour, and the trawling might be counted a failure also. Taken as a whole, the fishing during the year 1906 cannot be considered prosperous.

RETURNS showing the SHIPPING of all kinds to and from the PORT OF ARDGLASS for the year ended 31st March, 1907.

IMPORTS.

Number of Sailing Vessels.	Number of Steamers.	Registered Tonnage.	Cargo.	
			Tons.	Goods.
—	12	673	1,300	Coal.
2	—	57	57	Salt.

EXPORTS.

Number of Sailing Vessels.	Number of Steamers.	Registered Tonnage.	Cargo.	
			Tons.	Goods.
—	30	502	4,488	Potatoes.
			50	Oats.
1	—	93	150	Potatoes.

The shipping trade for the year was very good. There was an increase of 1,268 tons in the export of potatoes, but a falling off of 250 tons in the quantity of coal imported.

In the aggregate 6,245 tons of cargo were laden or unladen during the year.

The gross tonnage of vessels entering the harbour on which the fee of $\frac{1}{4}$ d. was charged was 522 tons.

APPENDIX E.

NATIONAL AND ANCIENT MONUMENTS.

Irish Church Act, 1869, 32 & 33 Vic., c. 42; Ancient Monuments Protection Act, 1882, 45 & 46 Vic., c. 73; Ancient Monuments Protection Act, 1892, 55 & 56 Vic., c. 46.

During the past year works of repair and preservation have been carried out at 27 structures vested under the Irish Church Act and 14 under the Ancient Monuments Protection Acts of 1882 and 1892, as follows:—

National Monuments.

Ardfert Cathedral, Co. Kerry.
 Glendalough Churches, &c., Co. Wicklow.
 St. Mary's Church, Down Mill, Co. Wicklow.
 Loughlinisland Churches, Co. Down.
 Timoleague Abbey, Co. Cork.
 Killiney Church, Co. Dublin.
 St. Audoen's Church, Co. Dublin.
 Skreens Church, Co. Meath.
 Clonsilla Churches, &c., King's County.
 Ratass Church, King's County.
 Dysert Church, Co. Clara.
 Roscrea Tower and Church, Co. Tipperary.
 Holycross Monastery, Co. Tipperary.
 Fossy or Timahoe Church and Tower, Queen's County.

Aran Islands Churches, &c., Co. Galway.
 Inishmurray Church, Cells, &c., Co. Sligo.
 Fenagh Abbey, Co. Leitrim.
 Maghera Church, Co. Londonderry.
 Kilree Church and Tower, Co. Kilkenny.
 Jerpoint Abbey, Co. Kilkenny.
 Killesha Church, Co. Kilkenny.
 St. Francis Abbey, Co. Kilkenny.
 Killamery Stone Cross, Co. Kilkenny.
 Killeavy Church, Co. Armagh.
 Killoispeen Stone Crosses, Co. Tipperary.
 Clones Tower and Abbey, Co. Monaghan.
 Donaghmore Church, Co. Meath.

Ancient Monuments.

Askeaton Abbey, Co. Limerick.
 Bective Abbey, Co. Meath.
 Dowth Moat and New Grange Tumulus, Co. Meath.
 Duleek Church, Co. Meath.
 Duleek Priory, Co. Meath.
 Slane Abbey, Co. Meath.
 Beehive Structures on Dingle Promontory, Co. Kerry.

Staigue Fort, Co. Kerry.
 French Church, Waterford.
 Kells Priory, Co. Kilkenny.
 Mellifont Abbey, Co. Louth.
 Termonfeckin Castle, Co. Louth.
 Rathmichael Church, Co. Dublin.
 Sherkin Island Abbey, Co. Cork.

Clonsilla, King's County.—General repairs have been effected at this group of churches, round tower and crosses, a description of which is in the body of this report, pages 10-17. Drawings illustrating the remarkable series of Inscribed Sepulchral Slabs are given below, pages 58-73.

Killeavy Church, County Armagh.—This ruin has been put into a proper state of repair, the walls being pointed and weathered, and all trees, shrubs, &c., which were in any way injuring the structure have been removed. The base of a Round Tower attached to the Church has been uncovered.

Bective Abbey, County Meath.—The remains of this building have recently undergone repair. All the ivy which was endangering the structure has been removed and the roofs grubbed up, also the whole of the walls have been carefully gone over, pointed, and weathered, and the arches and vaulting of the lower chambers have been secured and made watertight.

Duleek Old Stone Church, County Meath.—The remains of this building, which is reputed to be the first stone church erected in Ireland, have been repaired and left in good order.

Droick Priory, County Meath.—The tower here has been carefully examined and put into proper repair, and the remainder of this ruin has been repaired, and all defective pointing and weathering made good. The ivy has been taken down and the roots removed.

Slane Abbey, County Meath.—This ruin has received attention and the masonry of the walls which was injured by the percolation of water and the growth of ivy stems has been made good. The pointing has been generally repaired and the tops of the walls weathered. The remains of the conventual buildings adjoining also received attention and necessary repairs were carried out. All ivy has now been removed from off both groups of ruins and the roots grubbed up.

Mellifont Abbey, County Louth.—The remains of the Abbey, Old Church, and Gateway, have been thoroughly overhauled and put into a proper state of preservation. The loose stone carvings and mouldings stored in the Chapter House were all carefully taken down, replaced, and properly secured; also a guard rail was fixed to preserve these stones against injury. Excavations made in the Cloister Garth brought to light the foundations of other buildings and the correct position of the cloister arreading.

The ruins brought under the notice of the Board for vesting during the past year, exclusive of those sought to be vested under the operation of the Irish Land Act, 1903, are as follows:—

Ballymote Castle, . . .	Co. Sligo.
Inniskeen Round Tower, . . .	Co. Monaghan.
Killeen Church, . . .	Co. Meath.
Roscrea Castle, . . .	Co. Tipperary.
Roscommon Abbey, . . .	Co. Roscommon.
Grey Abbey, . . .	Co. Down.
St. Mary's Church, Gowran, . . .	Co. Kilkenny.

Of these the following have been accepted for guardianship:—

Inniskeen Round Tower, . . .	Co. Monaghan.
Roscrea Castle, . . .	Co. Tipperary.
*Roscommon Abbey, . . .	Co. Roscommon.
Grey Abbey, . . .	Co. Down.
*St. Mary's Church, Gowran, . . .	Co. Kilkenny.

* Subject to arrangements being made for control of burials.

The Irish Land Act, 1903, Section 14.

Under the provisions of the Irish Land Act, 1903, Sec. 14, the Land Commissioners may, with the consent of the Board, vest in them any Ancient Monument possessing historic, traditional, or artistic interest, situated on lands sold under the Act, and if the Board decline to accept the custody of the Monument it may, with the consent of the Council of the County in which the Monument is situated, be vested in that body.

During the past year the cases named below have been brought under the Board's notice by the Land Commissioners, but after examination none has been considered of such a character to admit of the Board accepting guardianship.

Puck's Castle, . . .	Co. Dublin.
Shaukill Castle, . . .	Co. Dublin.

CATALOGUE OF INSCRIBED SLABS AT CLONMACNOIS.

(See page 11.)

PLATE I.

(Inscriptions Only.)

No.	Dimensions.	Description.
1	(8" x 4½" x 1½"). ..	A small fragment bearing part of the letters in.
2	(4½" x 5" x 1½"). ..	A small fragment bearing part of the letters in . . . (?)
3	(10" x 8½" x 2½"). ..	A small fragment bearing the letters in.
4		A small fragment bearing the letters in (now raising)
5	(1' 7" x 1' 7" x 2"). ..	Inscription <i>Fernandus</i> , in two lines.
6	(10" x 11½" x 1½"). ..	Inscription (O) <i>de Med</i> (plat 1) rag. in two lines
7	(10" x 7" x 2½"). ..	Inscription (O) <i>de</i> . . . in two lines.
8	(5" x 1' 5"). ..	Inscription <i>Dichem</i> .
9	(8½" x 6½" x 1½"). ..	Inscription . . . <i>uis</i> . . .
10	(4' 6" x 2' 3" x 4½"). ..	Inscription <i>Madmichal</i> .

PLATE II.

(Inscriptions Only.)

11	(2' 6" x 1' 7½" x 2½").	Inscription <i>Or do Chofad</i> .
12	(2' x 1' 5" x 2½"). ..	Inscription <i>Dalprei</i> .
13	(2' 6" x 2' 4" x 4"). ..	Inscription <i>Orell</i> or <i>Thermin</i> inscribed in cross—"A prayer for Thermin by whom this cross was made."
14	(4' 6" x 2½" x 5½"). ..	Fragment of a Latin inscription in six lines

(Inscriptions with Initial Crosses.)

15	(1' 0½" x 10½" x 1½").	Fragment with inscription in two lines—only + <i>Or</i> . . . <i>Or</i> remaining.
16		Fragment with + <i>Or</i> . . . (missing).
17	(1' 5" x 2' x 2½"). ..	Inscription in four lines + <i>Or do Med-Nevandis</i> .

PLATE III.

(Inscriptions with Small Crosses.)

18	(2' 5" x 1' 5" x 4"). ..	Inscription + <i>Or do Dubhloic</i> (or 1 . . .).
19	(1' 6" x 11½" x 2"). ..	Greek cross and the inscription <i>Seis Reapal</i> in two lines
20	(2' 6" x 1' 10" x 4½").	Small cross, <i>Joachim</i> , and the inscription <i>Or do Cheddes</i> .
21	(1' 6" x 1' 1" x 4"). ..	Slab with a small cross pathe, and the inscription <i>Or do esuel</i> .
22	(1' 0½" x 10½" x 1½").	Small Latin cross pathe, and the inscription <i>Or do Cormac Amis</i> .
23	(2' 11½" x 1' 11" x 4½").	Small Latin cross pathe, and the inscription <i>Or do Dubhloic</i> , all very delicately engraved.

DRAWINGS OF THE INSCRIBED SLABS
FOUND AT CLONMACNOISINCLUDING THOSE WITH INSCRIPTIONS
IN THE IRISH LANGUAGE.

PLATES I TO 31. FIGURES 1 TO 307.

Drawn to a Scale of One-sixteenth Linear.

JULY, 1907.

PLATE IV.

(Inscriptions associated with Latin Crosses.)

No.	Dimensions	Description.
24	(2' 1" x 1' 2" x 4").	Two small Latin crosses with underneath them the inscription <i>Machabae</i> 175.
25	(2' 2" x 1' 10" x 3 1/2").	Latin cross <i>patée</i> , with inscription <i>Or de Finnachis</i> .
26	(2' 2" x 1' 6" x 3").	Latin cross <i>patée</i> , with inscription <i>Tus . . . or Tely . . .</i>
27	(1 1/4" x 0" x 1 1/2").	Cross with arched ends, and the letter <i>s</i> (the remains of <i>Colles</i> , according to a drawing by Petrie.) A small fragment only.
28	(1' 3" x 1' x 5").	Peculiar Latin cross, double-line vertical stem, single line horizontal arms. No inscription.
29	(1' 10" x 1' 3" x 4 1/2").	Cross <i>patée</i> , with triangles in base, and spiral-ended corner pieces. Inscription <i>Moss . . .</i> (Faintest).

PLATE V.

(Latin and Greek Crosses.)

30	(2' 4" x 1' 6" x 3").	Plain Latin cross with bevelled angles; inscription <i>Crossed</i> .
31	(3' 6" x 2' x 3 1/2").	No inscription. Latin cross of unusual design, and very rude execution.
32	(1' 7 1/4" x 10 1/2" x 3").	Fragment with part of a Greek Cross <i>patée</i> covered with interlacing work. No. 161 is cut on the reverse face of this slab.
33	(2' 1 1/2" above ground, x 15" x 4 1/2").	Headstone of a modern grave. A shaped slab bearing a plain Greek cross, open below. No inscription.

PLATE VI.

(Crosses in Square Panels.)

34	(1' 9" x 1' 4" x 2 1/2").	Plain cross in a plain single-line margin.
35	(1' 7" x 1' 3" x 4").	Similar cross with single line squares in the cantons. Inscription <i>Or de Finnachis</i> .
36	(2" x 1' 1 1/2" x 3 1/2").	Cross of four lines intersecting in a single line margin. A saltire at the centre.
37	(1' 2" x 1' 3" x 2 1/2").	Cross with lozenge-shaped centre and triangular arm ends inside a plain Greek cross of double lines contained in a single line margin. Inscription, <i>Poss(s)</i> .
38	(1' 2" x 10" x 2 1/2").	A cross similar to No. 37, but with the central cross line reduced to a crosslet at the centre, and short strokes at the ends. Inscription, <i>caput</i> .
39	(1' 10" x 1' 2 1/2" x 3 1/2").	Cross point of double lines inside a single line margin with external corner pieces. Inscription, <i>de Meisla</i> .
40	(1' 10 1/2" x 1' 6" x 3").	Greek cross inside a single line margin, of which the two upper angles terminate in spirals; the cantons filled with rows of <i>ls</i> .
41	(1' 10" x 1' 6" x 3 1/2").	A cross similar to No. 39, with some features borrowed from 38. Inscription, <i>Acta</i> .
42	(9" x 3 1/2" x 3").	Small fragment with corner of the margin of a panel. Inscription, <i>de . . .</i>
43	(1' 1 1/2" x 8" x 2 1/2").	A cross of four lines inside a marginal line of two lines; the centre surrounded by a circle of two lines. A lozenge containing a small annulet on the intersection of the cross. About half is broken away.
44	(8" x 5 1/2" x 2 1/2").	Angle of the margin of a panel with internal corner pieces.
45	(1' 1" x 8" x 3 1/2").	Cross of four lines inside a two-line margin, a lozenge surrounding the centre. Small triangular cuttings on the sides of the cross. A little more than a quarter remains.

PLATE VII.

(Crosses in Square Panels.)

46		A plain cross with square expanding ends inside a plain single line margin. Inscription, (Or de) <i>Stachis</i> (major <i>Stachis</i>). "A prayer for Stachis Stachis." This inscription is rather doubtful.
47	(1' 3" x 1' x 3").	A double line cross with corner pieces inside a double line margin.
48	(1' 4" x 1' 3" x 3 1/2").	A slab with a cross sketched in design with No. 47.
49	(1' 1" x 1' 1" x 2 1/2").	Cross <i>patée</i> quadruple bearing a crosslet <i>patée</i> inside a square on the intersection, inside a single line margin.
50	(2' 4" x 2' 4" x 3").	Margin of four lines containing a cross of four lines, concentric circles interrupting every intersection. Inscription, <i>de Meisla</i> .
51	(1' 10 1/2" x 1' 1" x 3").	Cross <i>patée</i> quadruple inside a three-line margin. Inscription, <i>Adversus ipse Deus . . .</i>
52	(1' 6" x 1' 10" x 3").	Single line cross with stepped corners and arm ends inside a single line margin with internal corner pieces.
53	(1' 2" x 1' 3" x 3 1/2").	Single line cross with lozenge at centre and triangular arm ends, in single line margin. Inscription, <i>con . . .</i>
54	(8" x 5" x 1 1/2").	Small fragment, three line cross with expanding arm ends in a two line margin. Inscription, (<i>Orat</i>) or (<i>de</i>) <i>Stachis</i> .
55	(1' 10" x 1' 3" x 3 1/2").	Two line Greek cross with bevelled angles inside a single line margin. Inscription, <i>Machabae</i> .

PLATE VIII.

(Crosses in Square Panels.)

No.	Dimensions.	Description.
56	(2' 4" x 2' 2" x 2 1/2") ..	Two line cross potent with interlaced angles. At the centre a crosslet voided containing a pellet. Single line margin. Inscription,
57	(1' 7" x 1' 3" x 3 1/2") ..	Three line cross potent with lozenge at the centre; single line margin with square lateral corner-pieces. Inscription,
58		Four line cross with circle round centre inside three line margin. Inscription, <i>Good</i> (missing).
59	(2' x 2' 3" x 1 1/2") ..	Four line cross with circle round centre, in three line margin. Inscription, <i>Egny Dashed</i> "Bishop Dashed."
60	(1' 10" x 1' 5" x 4") ..	A cross almost identical with No. 58. No inscription.
61	(2' 10" x 2' 2" x 4") ..	Four line cross with circle surrounding intersection, and bearing a crosslet potent, inside a three line margin. Inscription, <i>Alman</i> .

PLATE IX.

(Crosses in Square Panels.)

62	(1' 3 1/2" x 2" x 2") ..	Half of a three-line cross with a circle (enclosing pellets) surrounding the centre, inside a two-line margin.
63	(1' 10" x 1' 2 1/2" x 3") ..	Four-line cross with a circle at the centre, inside a two-line margin. Inscription, <i>Swilpe</i> .
64	(1' x 1 1/2" x 3") ..	Four-line cross potent with interlaced angles, circle round intersection, inside a three-line margin.
65	(2' 3" x 1' 5" x 3 1/2") ..	A cross of the same general type as some of preceding, but with a more elaborate margin. Inscription, <i>Arve</i> .
66	(1' 2" x 1' x 2 1/2") ..	Cross resembling No. 62, with corner pieces added to the margin.
67	(1' 3" x 10" x 2") ..	Corner of a Greek fret margin, with
68	(2' x 2' 2" x 3 1/2") ..	Cross with circle at the centre enclosed in a Greek fret. Inscription,
69	(2' 1" x 1' 10" x 2") ..	A similar cross, with inscription, <i>Me</i>
70	(1' 10" x 1' 3 1/2" x 2") ..	A similar, but more elaborate cross, with inscription, <i>Pendal</i> .

PLATE X.

(Crosses in Square and Round Panels.)

71	(1' 4" x 1' 5" x 2 1/2") ..	Three-line cross, with circle round centre in two-line margin. About half broken away. No inscription.
72	(1' 3 1/2" x 1' 1" x 2") ..	Four line cross, lozenge at centre surrounded by circle, two-line margin. No inscription.
73	(1' 9" x 1' 5" x 6") ..	Double-line cross with interlaced angles in double-line margin. Inscription, <i>Sodfve</i> .
74	(1' 5" x 1 1/2" x 2 1/2") ..	Cross in a circle, nearly all broken away. Inscription, + <i>Pe</i>
75	(2' 5" x 1' 2" x 1 1/2") ..	Flam cross of two lines in a circle. Inscription, <i>Hande</i> .
76	(1' 5" x 1' 10 1/2" x 3") ..	Cross formed of four arcs of circles in a double-line circular margin. Small crosses outside the margin. Probably an altar slab.
77	(3' 6 1/2" x 1' 5" x 3 1/2") ..	Cross potent in a circle. Inscription in four lines below, <i>Of de Mvirkash</i> .
78	(1' 5" x 1' 11" x 4") ..	Cross quadrante in a circle. Inscription, <i>Luton</i> , preserved by Petrus. Now all gone but part of the <i>L</i> .
79	(2' x 1' 5" x 2") ..	Cross with expanding ends in a circle. Inscription, <i>Mercus</i> .
80	(7 1/2" x 6" x 1 1/2") ..	Fragment with two curved lines, similar to No. 74.

PLATE XI.

(Crosses in Circular Panels.)

81	(2' 5" x 2' 5" x 4 1/2") ..	A very fine device of interlacing work enclosed in a circle of key pattern fret. Inscription, <i>Of de Fickelsh</i> .
82	(1' 6 1/2" x 1' 2" x 1 1/2") ..	A circle containing a diaper of leaves forming hexagons.
83	(1' 5" x 1' 5" x 2 1/2") ..	Cross quadrante potent inside a circle covered with elaborate interlacement. About two-thirds missing.
84	(1' 5" x 1' 4" x 2 1/2") ..	A cross within a circle, crossletted, the crosslets also within circles. Probably an altar slab.

PLATE XII.
(Celtic Crosses.)

No.	Dimensions	Description.
85	(2' 2" x 2' 3" x 3½").	Cross quadrate, the arms joined by a circle. Inscription, <i>Anlos or Anlos</i> .
86	(1' 10" x 2' 6" x 3½").	Equilateral cross quadrate, the arms joined by a circle. Inscription, <i>Ō or Phobos</i> . The whole is contained in a rope knot.
87	(1' 6" x 1' 7" x 2").	Lower end of a Celtic cross.
88	(2' x 2' 4½" x 4").	Celtic cross, with, above, the inscription, <i>Rosam</i> .
89	(2' 1" x 2' 10½" x 4½").	Celtic cross, with inscription, <i>Maircoland</i> .
90	(8" x 6" x 4½").	Head of a Celtic cross with inscription, <i>Ū do</i> . . .

PLATE XIII.
(Celtic Crosses.)

91	(1½' 8½" x 2' x 1' 2" x 1' 4" x 5").	Two upper fragments together, 2' 8½" broad, 2" thick, lower fragment 1' 2" x 1' 4" x 5". Celtic cross with loops at the angles. Inscription, <i>Ū do Bantar</i> .
92	(2' 8" x 2' 3½" x 3½").	Celtic cross with loops at the angles. Inscription, <i>Ū or Mac-Quinnia</i> .
93	(5' 3" x 2' x 2½").	Celtic cross terminating below in a spiral. Inscription, <i>Oreid</i> (cf. <i>Perdonsach</i>).

PLATE XIV.
(Celtic Crosses.)

94	(2' 6" x 2' 6" x 4½").	Celtic cross with double-line margin. Inscription, <i>Ū do Anlos</i> .
95	(2' 6" x 2' 2" x 2½").	Celtic cross with looped arm-ends and inscription reading apparently <i>Tamlin</i> .
96	(3' x 2' x 2½").	Celtic cross with pointed feet terminating in an oval expansion. Inscription, <i>Ū do R(ia)gal</i> .

PLATE XV.
(Celtic Crosses.)

97	(3' 1" x 3' 2" x 3").	Celtic cross formed of a double margin of rope work; in the base, which is pointed, a trigonum. Inscription, <i>Ū do R(ia)gal</i> .
----	-----------------------	---

PLATE XVI.

(Celtic Crosses.)

No.	Dimensions.	Description.
98	(3' 5" x 2' 2" x 3") ..	Celtic cross terminating in spirals below. Inscription in one line above apparently <i>WY</i> . . . <i>domen</i> .
99	(2' 7" x 1' 6½" x 1½") ..	Celtic cross of very peculiar type with small loops at the angles; much injured, and very difficult to make out. Inscription also hard to decipher, it appears to read <i>Or do Anghel</i> .
100	(1' 8½" x 1' 6" x 3½") ..	Celtic cross, arms not expanding. Inscription, <i>Or do</i> . . .
101	(2' x 1' 6" x 2½") ..	Celtic cross, the arms expanding into triangles with loops at the corners. Inscription, <i>Or do Mad/pairic</i> —the bracketed letters recorded by Peiris, but now missing.
102	(2' 9" x 2' 3" x 2½") ..	Celtic cross, the arms divergent and spiral. Inscription, <i>Or do Theodol</i> .

PLATE XVII.

(Celtic Crosses.)

103	(4' 6" x 3' x 5") ..	A fine Celtic cross, covered with key patterns, the head terminating in two spirals. Much worn, and difficult to make out. No inscription.
104	(1' 3" x 1' 8" x 2½") ..	Celtic cross with loops at the terminations. Inscription, <i>Or do</i> <i>Maiche</i> (s), the bracketed letters now lost.
105	(1' 4½" x 9" x 4") ..	Top of a plain Celtic cross with inscription <i>do</i> . . . (1).
106	(3" x 4½" x 1½") ..	A fragment possibly bearing part of a Celtic cross.
107	(1' 1½" x 8" x 6") ..	Fragment with the top of a Celtic cross, and the inscription <i>Or do Fain</i> .
108	(2' 6" x 1' 10" x 3") ..	Celtic cross <i>flèche</i> with the inscription, <i>Or do Chaidan</i> .

PLATE XVIII.

(Celtic Crosses.)

109	(2' x 1' 9" x 2½") ..	Celtic cross, bottom broken. Inscription, <i>And</i> .
110	(2' 4" x 1' 8" x 2½") ..	Celtic cross resembling No. 104. Inscription, <i>Dobres</i> .
111	(11" x 10" x 1½") ..	Fragment being a curious modification of the Celtic cross, with the portion contained by the circle orbited and the circle made lozenge-shaped.
112	(3' 2" x 2' 0½" x 1½") ..	Celtic cross <i>flèche</i> with notches on the three upper terminations. Inscription, <i>Mad-fail</i> .
113	(11½" x 7" x 1½") ..	Extremity top of a Celtic cross with the inscription (<i>Or do</i>) <i>t or Ann</i> . . .
114	(2' 4" x 1' 6" x 2½") ..	Celtic cross terminating below in spirals. Inscription, <i>Or do Eaidrian</i> .
115	(1' 11½" x 1' 4" x 3½") ..	Cross identical with the preceding. No inscription.
116	(1' 6" x 1' 9" x 4") ..	A similar cross to the preceding, but at larger scale, and broken below. Inscription, <i>Or do Colloch</i> .

PLATE XIX.

(Celtic Crosses with Greek Fret Borders.)

117	(2' 6" x 1' 8" x 4½") ..	Quadrant Celtic cross terminating below in spirals enclosing a simple knot. Inscription, <i>Or do</i> or <i>Maiche</i> . . .
118	(2' 4" x 1' 10" x 2½") ..	Quadrant Celtic cross with a peculiar base resembling in style that on No. 86. Greek fret border. Less than half remains.
119	(1' 2" x 10" x 2") ..	A slab with a Celtic cross, and the inscription <i>Or do</i> or <i>Madairan</i> . This has suffered mutilation since 1856, the corner bearing the last surviving fragment of the Greek fret having disappeared.
120	(1' 4" x 1' 6" x 3½") ..	A fragment of a cross-ornamented Celtic cross inside a Greek fret. Peiris gives the inscription, <i>Or do</i> or <i>Lau</i> . . . as remaining in 1822.
121	(5½" x 1' 5½" x 2½") ..	Small fragment of the top of a Celtic cross which Peiris found perfect. The arms were plain, the stem ends looped. Inscription (<i>Or do</i>) <i>BN</i> (u).

PLATE XX.

(Modifications of Celtic Crosses.)

No.	Dimension	Description.
122	(1' 9" x 1' 10" x 2 1/2") ..	Celtic cross of unusual pattern with a circular center. Inscription, <i>Kilkee Headstone</i> .
123	(1' x 1' 1" x 4 1/2") ..	Bottom of a large cross terminating below in double spirals. The upper half (of which the above are the dimensions) alone remains, the lower half having disappeared.
124	(1' 6" x 1' 6 1/2" x 4") ..	Central portion of a Celtic cross bearing a triskelion.
125	(1' 5 1/2" x 2' x 3") ..	Cross with a circle, the intersection inside the circle suppressed as in No. 111. Inscription, <i>St de Maccan</i> .
126	(1' 7" x 1' 5 1/2" x 2 3/4") ..	End of a plain cross arm with semicircular expansion, and inscription, . . . rer . . . asqum (Fragment only).
127	(6 1/2" x 5 1/2" x 1 1/2") ..	Arm of a small cross with expanding end.
128	(1' 5 1/2" x 1' 6" x 2") ..	Cross with plain central and terminal expansions. Inscription (<i>St de Foyrwick</i>) in Breton. Two crosses <i>passeees</i> have been cut afterwards, apparently to turn the slab into an altar stone.
129	(1' 3" x 5 1/2" x 2") ..	Small fragment of a similar cross with one letter (d or p) remaining.
130	(1' x 9 1/2" x 1 1/2") ..	Small fragment with the central portion of similar cross.
131	(1' 6" x 1' 1 1/2" x 3") ..	Arm of a similar cross with inscription. <i>St de Mardach</i> .

PLATE XXI.

(Crosses with Central and Terminal Expansions.)

132	(1' 10" x 1' 4" x 5") ..	Arm or stem of a similar cross with inscription, <i>Martine</i> .
133	(2' 2" x 2' x 2 1/2") ..	Epistylar cross with circular expansions. Inscription, <i>St de Orléans</i> .
134	(1' 1 1/2" x 5 1/2" x 1 1/2") ..	Small fragment of the side of a similar cross. Inscription, (<i>For Trian</i>) and 2.
135	(1' 10 1/2" x 1' 2 1/2" x 2 1/2") ..	Similar cross to No. 128, but with the five expansions voided. Inscription, <i>St de Mardach</i> .
136	(2' 4" x 1' 8" x 4") ..	Similar cross to No. 135, but with a crosslet in the central expansion. Inscription, <i>St de Mardach</i> .
137	(1' 6 1/2" x 1' 5" x 1 1/2") ..	A cross with a circular central expansion containing a key-pattern and blank end-circles terminal. Inscription (<i>St de Mardach</i>) and 2. The missing letters are recorded by Petrie.
138	(1' 1" x 2' x 2") ..	Stem and part of the centre of a seven-line cross. Inscription, . . . d'la . . .
139	(1' 1" x 1' 2" x 1 1/2") ..	Fragment of a three-line cross, one arm and containing a curious correspondence between voiding and the key-pattern. Inscription, <i>St de Du</i> .
140	(2' 10" x 1' 2" x 2 1/2") ..	Three-line cross with circular expansions containing key-patterns. Inscription, <i>St de Mardach</i> .

PLATE XXII.

(Crosses with Central and Terminal Expansions.)

141	(2' 2" x 20 1/2" x 5") ..	A cross of similar type to the preceding. Inscription, + <i>St de Fethard</i> .
142	(2' 2" x 2' 4" x 2") ..	A cross like the preceding but longer, and with the same inscription, (<i>St de</i>) <i>Fethard</i> .
143	—	A five-line cross with circular central expansions containing a knot and blank terminal expansions. No inscription (new missing).
144	(1' 1 1/2" x 1' 6 1/2" x 2 1/2") ..	Fragment of a three-line cross of the same type as the last. Inscription, <i>St de F</i> . . .

PLATE XXIII.

(Crosses with Central and Terminal Expansions.)

145	(3' 8" x 1' 10" x 2 1/2") ..	A slender cross with knotwork in all the expansions. Inscription, <i>St de Orléans</i> .
146	—	Lower half of a slab with a five cross of similar type to the last, covered with knotwork all over. Inscription, (<i>Ouis</i>) and 9 . . . Underside (new missing).
147	(2' 2" x 1' 2" x 4") ..	Seven-line cross of the same shape with key pattern in the upper terminal, and knots in the centre and sides. The base is broken off. Inscription, <i>St de Orléans</i> .
148	(3' x 1' 3 1/2" x 4") ..	Three-line cross, triskelion in centre, terminals voided. Inscription, <i>St de Dubrovnik</i> .

PLATE XXIV.

(Crosses with Central and Terminal Expansions.)

No.	Dimensions	Description.
149	(3' 6" x 1' 9" x 4 1/2") ..	Three-line cross, triskelion in centre, terminals blank. Inscription, <i>Of de Flashed</i> .
150	(3' 5" x 1' 11" x 3") ..	Irish cross to last. Inscription, <i>Of de Bonni</i> .
151	(1' 6 1/2" x 1' 7" x 3 1/2") ..	Upper part of an identical cross. No inscription.
152	(2' 6" x 2" x 2") ..	Irish cross. Inscription, <i>Of de Owee</i> .
153	(1' 7" x 1' 8" x 3 1/2") ..	A peculiar variation on the type of the preceding crosses. Inscription, (Maj)shires

PLATE XXV.

(Crosses with Central and Terminal Expansions.)

154	(3' 7" x 1' 9" x 3 1/2") ..	A similar cross, with triskelion in the centre, and key pattern in the terminals. Inscription, <i>Of de Moelwee</i> .
155	(2' 11" x 1' 10" x 3 1/2") ..	Strider cross, triskelion in centre, key pattern in terminals. No inscription.
156	(2' 7" x 2' 6") ..	Upper part of a splendid seven-line cross, with divergent spiral pattern in the centre and key patterns in the terminals. Inscription, (Maj)shires.
157	(3' 3" x 2' 2" x 2") ..	A similar cross to the last, perfect, and with an inscription apparently reading, <i>Of de T'ant (k)al</i> .
158	(3 1/2" x 5 1/2" x 1 1/2") ..	Small fragment of an eight-line cross.

PLATE XXVI.

(Crosses with Central and Terminal Expansions.)

159		This fragment is greatly mutilated. It is now in the collection of the Royal Irish Academy.
160	(11 1/2" x 4 1/2" x 1 1/2") ..	Fragment of the centre and one arm of a three-line cross.
161	(On the reverse of 160)	Fragment of a three-line cross, with blank centre and triangular terminals.
162	(1' 11" x 1' 8" x 2") ..	Cross of the same shape as the last, with knots in the expansions. Inscription, <i>Of de Maj)shires</i> , the last letters recorded by Peter.
163	(3' 3" x 1' 9" x 4 1/2") ..	Cross with lozenge-shaped central expansion containing a knot and semicircular blank terminals. Inscription, <i>Of Comen</i> .
164	(3' 1 1/2" x 1' 5" x 4 1/2") ..	Cross with circular centre containing a knot, basal terminal square, the others semicircular, all four blank.
165	(1' 10" x 1' 8" x 1 1/2") ..	Cross purely with lozenge-shaped central expansion. Inscription, (Maj)shires.
166	(11" x 1' x 3 1/2") ..	Fragment with a cross similar to the last, but with a large circular central expansion. Inscription, <i>Gorn</i>

PLATE XXVII.

(Crosses with Central and Looped Terminal Expansions.)

167	(9 1/2" x 8" x 3") ..	Small fragment of a blank terminal expansion of a four-line cross.
168	(3' 4" x 1' 9" x 3 1/2") ..	Cross formed of an interlacing band, and the inscription, <i>Of de Dene</i> .
169	(1' 9" x 1' 1 1/2" x 4 1/2") ..	Latin cross with expanding centre and arms inside a panel. Inscription, <i>Arms</i> .
170	(1' 8" x 8" x 1 1/2") ..	Fragment with two looped terminals, and the letter Q.
171	(1' 11" x 1' 9" x 3 1/2") ..	Fragment of a seven-line cross with blank looped terminals, and the inscription (<i>Of de</i>) <i>Enchey</i> <i>Mepheren</i> .
172	(1' 4" x 2' 1" x 1 1/2") ..	Head and part of dexter terminal of a seven-line cross with key pattern in the expansions.
173	(10 1/2" x 8" x 2") ..	Fragment with an arm and containing a key pattern, and the letters ac.
174	(2' 1" x 1' x 4") ..	Fragment with base of a five-line cross with looped terminal, containing a key pattern and the inscription, (<i>Of de</i>) <i>Uae</i> <i>O</i> .
175	(10 1/2" x 9" x 2") ..	A small fragment bearing a looped terminal with key pattern.
176		A small fragment bearing the letters <i>ord</i>
177	(15 1/2" x 11" x 2 1/2") ..	Small fragment with part of a looped terminal containing a key pattern.
178	(1' x 10" x 4") ..	Small fragment with part of a five-line arm with looped terminal containing a key pattern and the letters <i>del</i> .
179	(3' x 1' 7" x 2") ..	Five-line cross with circular expansion containing a triskelion and looped terminals containing key pattern. Inscription, <i>Of de Moelwee</i> .

PLATE XXII

PLATE XXV

PLATE XXVI

PLATE XXVII

PLATE XXVIII.

(Crosses with Central and Looped Terminal Expansions)

No.	Dimensions.	Description.
180	(2' 5" x 1' 8" x 2") ..	Three-line cross, basal terminal blank, other expansions containing key pattern. Inscription, <i>Or do Gallop</i> .
181	(1' 4" x 10 1/2" x 3") ..	Seven-line cross with corner of two terminals, and inscription . . . <i>de</i> .
182	(1' 5" x 1' 5" x 2 1/2") ..	Fragment bearing a looped terminal with key pattern.
183	(1' 7 1/2" x 10" x 2 1/2") ..	Fragment bearing part of a cross with key pattern, the terminals, and the letters . . . <i>moor</i> .
184	(2" x 1' 6" x 2 1/2") ..	Fragment bearing looped terminal with key pattern, inside a two-line panel. Inscription, . . . <i>de</i> . . . <i>on</i> .
185	(1' 4 1/2" x 1' 8" x 2 1/2") ..	Fragment bearing a looped terminal with the key pattern and the letters . . . <i>de</i> .
186		Small fragment of the stem and terminal of a cross missing.
187	(2' 5" x 1' x 3 1/2") ..	Fragment with three-quarters of a cross of the type under discussion, having key pattern in the expansions. Inscription, <i>Or d</i> . . .
188	(2' 0 1/2" x 1' 2" x 2 1/2") ..	Cross with the usual expansions, a divergent spiral in the center and key patterns in the terminals. Inscription <i>Or d</i> (No) . . . <i>in</i> (Glasgow). The bracketed letters are recorded by Petrie.
189	(2' 8 1/2" x 1' 5" x 4 1/2") ..	Second fragment, 11" x 8" x 4 1/2". Cross with a spiral pattern in the center, a knot in the head, and a key pattern in the other terminals. The inscription is <i>Or d</i> (No) (No) (No).

PLATE XXIX.

(Crosses with Central and Looped Terminal Expansions.)

190	(3' 4" x 1' x 3") ..	Cross with incision in the center and key pattern in the terminals. A peculiar circular diaper pattern beneath the cross much injured. Inscription, <i>Or de Gifford</i> .
191	(2" x 1' 10" x 4 1/2") ..	A cross identical with the last. Inscription, <i>Or de Gifford</i> .
192	(1' 10" x 1' 2" x 1") ..	A cross similar to the last, though differing in the details of the ornament. Inscription, <i>Or de Gifford</i> .
193	(3" x 1' 10" x 2 1/2") ..	Cross with incision in the center, blank terminals. Inscription, <i>Or de Gifford</i> .
194	(3' 7 1/2" x 1' x 2") ..	A cross similar to the last, but with key patterns in the terminals. No inscription.

PLATE XXX.

(Miscellaneous Crosses.)

195	(3' 11" x 2' 3" x 3") ..	A cross resembling No. 184 with four worms in the center enclosing the inscription, <i>Or de Choban</i> .
196	(On the reverse of 128) ..	A cross resembling the last, incision in center. Inscription, . . . <i>de</i> . . .
197	(2' 5" x 2' 3" x 2") ..	A large cross with loops on the sides of the expansions. Devices in the expansions indecipherable. Inscription, <i>Or d</i> . . .
198	(1' 10 1/2" x 1' 3" x 1 1/2") ..	Slab with a square, the ends prolonged to form crosses which are enclosed in circles. Probably an altar slab.
199	(1' 5" x 1' 1" x 2") ..	Altar slab with five crosses.
200	(3" x 5" x 2") ..	Slab with two deep grooves cut upon it.
201	(10 1/2" x 7 1/2" x 2") ..	Fragment with a single straight line across it.
202	(1" x 10" x 1 1/2") ..	Fragment of a cross in a panel with the inscription, . . . <i>de</i> .
203	(9 1/2" x 5 1/2" x 2 1/2") ..	Fragment with two lines, and the inscription, . . . <i>de</i> . . .

PLATE XXXI.

(Late Slabs.)

204	(5' 1" x 1' 5" x 2 1/2") ..	Latin cross in panel with cross in center, incised below. Inscription <i>Or d</i> C . . . <i>us</i> (1) <i>Machina de Lerys</i> .
205	(3' 4" x 2' 0 1/2" x 4") ..	Quadrato cross potent in a panel. Very faint traces of C . . . <i>us</i> in one panel.
206	(1' 5" x 1 1/2" x 2 1/2") ..	Panelled cross on a calvary bearing a crosslet. Small fragment of the base.
207		Base of a highly decorated panelled cross on a calvary (now missing).

* Minimum net monthly payment of \$100 required.

*The writing of the *Time* story began on April 12, 1961, and continued through the summer of 1962.

† These figures include the receipts and expenditure for the entrance to the Pier, which is not covered by the ordinary duties.

LINE	District	Locality or Miles	Order in Column		Value charged			Proportion of unabsorbed guaranteed capital charged thereon	Amount paid up	Maximum amount payable for which Treasury is liable on 31st Dec.	Date of completion
			Date	Grants and Capital authorised	Rate of interest paid	Description	Value paid				
10. Quaker & Boscawen	Dorset.	12½	2nd July, 1887.	25,000	6	Part of Extension of Bathurst, Uppermost and the whole	25,000	1	25,000	25,000	2nd July, 1887.
						Part of Line of Dorchester	14,000	1		25,000	2nd July, 1887.
11. Southampton and Test	Dorset.	6	1st Feb., 1885. 20th March, 1885.	25,000	6	Remainder of Line and Extension and part of S. D. B. Carvery.	25,000	2½	25,000	25,000	1st Feb., 1885.
